

# Find opportunities across all markets caps.

## Choose **HSBC Multi Cap Fund**

### Portfolio diversification

By investing across large, mid and small cap companies (minimum of 25% in each cap), the Fund offers a diversified portfolio with the aim to lower risk by also investing up to 25% in debt and money market securities

### Ideal for first time investors

By keeping risk in control, it helps first time investors to gain exposure to all market caps through a diversified portfolio

### Exposure to all economic sectors

The Fund is not restricted to any particular market cap or sector giving you exposure to companies that are driving the economy

### Long-term investment horizon

The Fund aims to smooth out the effects of volatility and capture opportunities arising through all market conditions over the long term

### Sail through all market conditions

Fund manager takes the decision to invest across large, mid and small caps depending on prevailing market conditions for potential growth

### Better potential growth, lower risk

Mid and small caps offer better potential alpha while large caps bring in potential stability and a cushion against short term market volatility
