Materials		1.31%	Financials		-1.12%
Consumer Staples		1.11%	Information Technology		-1.08%
Utilities		0.42%	Energy		-0.93%

Portfolio sectoral positioning:

View	Sector			
Positive	Financials (lenders)	Healthcare	Industrials	Real Estate & Consumer Discretionary sectors
Neutral	Technology	Materials	-	-
Underweight	Consumer Staples	Energy	Utilities	Communication Services

Performance Attribution – Equity portion (1 Year):

- Equity performance was adversely impacted by sector allocation. Being UW Utilities and Consumer Staples and being OW Real Estate & Materials, adversely impacted the performance.
- Stock selection within Financials helped the performance while stock selection in Technology, Consumer Discretionary and Industrials adversely impacted the performance.

Fund philosophy

- Prefer dominant and scalable businesses available at reasonable valuations.
- Profit pool consolidation with dominant players to continue and disruption to accelerate this shift.
- Stock selection focuses on earnings growth trajectory and within that, the emphasis lies on earnings surprises.
- Since valuations are about +1 STD from its historical averages, it is as much a driver of stock selection as earnings growth.

Key portfolio themes

- Our portfolios are high conviction portfolios with a cyclical tilt to be well positioned for the earnings growth and macro recovery cycle holding a medium to long term view.
- Portfolio construction is through bottom-up stock selection and there is an emphasis on sustainable earnings growth, relative earnings and earnings surprises.
- However, in the macro set up of rising rates, depreciating currency and slowing growth, corporate earnings would likely see a downward revision after second quarter results. On the other hand, valuation is elevated both in absolute and relative basis. In light of the above we have tamed our pro-cyclical bias slightly and increased our exposure in the defensive sectors to de-risk our portfolio.
- Our positioning in the portfolio is:
 - Overweight to Domestic cyclical plays: Our highest active sector weight remains financials which would see credit cost normalization and earnings expansion, followed by Auto which is benefitting from cyclical recovery and real estate on improving residential affordability and industry consolidation;
 - Small overweight to Capex oriented plays: Cement, industrials, and building materials – The capex push reiterated in the recent budget is a key positive for the sector.
 - Equalweight to Global growth plays: We see Technology and Chemicals as structural plays – but have equal-weight position given near term growth concerns and valuations higher than historical averages;
 - We are underweight on consumption (especially rural consumption), IT and regulated businesses like utilities and energy.

Asset allocation: As at end of the month, the equity exposure in the fund stood at 69.48%.

Past performance may or may not be sustained in the future.

*Additional benchmark as per SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021.
TRI data of Standard Benchmark is not available since inception of the scheme. Standard Benchmark performance is calculated using Composite CAGR of S&P BSE Sensex PRI values from date 10-Dec-2002 to date 30-May-2007 and TRI values since date 31-May-2007
Performance of the respective benchmark is calculated as per the Total Return Index (TRI)

⁹ The benchmark of the scheme has been changed from S&P BSE 200 TRI to NIFTY 500 TRI with effect from November 18, 2019.

Returns are of growth option. The returns for the respective periods are provided as on September 2022. Returns above 1 year are Compounded Annualized. Standard The performance details provided herein are of other than Direct Plan - Growth Option. Returns on ₹ 10,000 are point-to-point returns for the specific time period, invested at the start of the period. The returns for the respective periods are provided as on last available NAV of September 2022 for the respective Schemes. Returns for 1 year and Above are Compounded Annualised. Returns for less than 1 year is Simple Annualised.. Load is not taken into consideration for computation of performance. Different plans shall have a different expense structure. The expenses of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses / commission charged to the Other than Direct Plan. The performance data of the scheme(s) managed by the respective Fund Manager which has/have not completed 6 month is not provided. Considering the varying maturities of the close ended schemes, the performance of close-ended schemes is not provided as it is strictly not comparable with that of open ended schemes.
The Performance of HSBC CRISIL IBX 50:50 Gilt Plus SDL Apr 2028 Index Fund (managed by Kapil Punjabi) is not given since the scheme has not completed 6 Months from the date of inception. Since inception returns are to be provided since the date of allotment of units.
The performance details provided herein are of other than Direct Plan –Growth Option. Assuming ₹ 10,000 invested systematically on the first Business Day of every month over a period of time The returns for the respective periods are provided as on last available NAV of September 2022 for the respective Schemes. Returns for 1 year and Above are Compounded Annualised. Returns for less than 1 year is Simple Annualised.. Load is not taken into consideration for computation of performance. Different plans shall have a different expense structure. The expenses of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses / commission charged to the Other than Direct Plan. The performance data of the scheme(s) managed by the respective Fund Manager which has/have not completed 6month is not provided. Considering the varying maturities of the close ended schemes, the performance of close-ended schemes is not provided as it is strictly not comparable with that of open ended schemes.

The Fund offers flexible and convenient Systematic Investment Plan (SIP) facility. To illustrate the advantages of SIP investments, this is how your investments would have grown if you had invested say ₹ 10,000 systematically on the first Business Day of every month over a period of time in the Growth Option of Respective Scheme. The returns are calculated by XIRR approach assuming investment of ₹10,000/- on the 1st working day of every month. XIRR helps in calculating return on investments given an initial and final value and a series of cash inflows and outflows with correct allowance for the time impact of the transactions.
SEBI vide its circular no. SEBI/HO/IMD/ IMD-II DF3/P/CIR/2021/652 dated October 27, 2021, on 'Guiding Principles for bringing uniformity in Benchmarks of Mutual Fund Schemes' has introduced two-tiered structure for benchmarking of certain categories of schemes. Accordingly, the benchmark of the scheme has been classified as Tier 1 benchmark effective from 01 December 2021.
