

Different situations need different players.

It's why you need Multi Asset Allocation Funds.

A good team is created with a balance of different players who can adapt their strengths to changing situations. Multi Asset Allocation Funds bring you the same advantage by adapting to changing market conditions, moving interest rates, government policies and other conditions, if any.

Equities

Aggressive Growth

- Provide long term growth potential with slightly higher risk
- May help to beat inflation over time

Debt

Dependable Income

- Invests in bonds, government securities, money market instruments, etc.
- Relatively lower volatility and risk compared to equities

Gold*

Timely Defense

- Hedge against short to medium term volatility of equities
- Provides downside protection in falling markets

*Note: Multi Asset Allocation Fund can have any other commodity as their asset class. "Gold" as an asset class is taken for illustrative purpose only.

Multi Asset Allocation Funds have the ability to shift allocation towards opportunities in these asset classes to help build wealth over time.
