BRIEF BACKGROUND AND CONSEQUENCES OF THE PROPOSED TRANSACTION

Change of Sponsorship, Trusteeship, Management and Administration of L&T MF Schemes along with change in control of L&T AMC

L&T Mutual Fund presently has 29 schemes in operation, the details of which are more particularly set out in Exhibit 2, along with brief background on L&T Mutual Fund, L&T Sponsor, L&T AMC and L&T Trustee hereto and the assets under management (“AUM”) of the L&T MF Schemes is approximately INR 72,322.38 crores as on September 30, 2022.

Pursuant to the completion of the Proposed Transaction (“**Completion**”), the L&T Trustee will cease to act as the trustee and relinquish its rights, role, responsibilities, authority and functions as the trustee of the L&T MF Schemes (including the assets, liabilities of the L&T MF Schemes, the unclaimed dividends, unclaimed redemptions, the load balances, if any, any balance in the investor education fund and all records relating thereto) in favour of the HSBC Trustees which shall, in accordance with the provisions of the SEBI (Mutual Funds) Regulations, 1996 (“**MF Regulations**”) and other regulatory and contractual formalities as may be applicable, become the trustee to the L&T MF Schemes.

In furtherance of the aforesaid, the trust deed dated October 17, 1996 (as amended from time to time) (“**L&T Trust Deed**”) constituting the L&T Mutual Fund and appointing the L&T Trustee, will need to be amended to, *inter alia* authorise L&T Trustee to transfer the L&T MF Schemes to HSBC Mutual Fund, merge/consolidate L&T MF Schemes and HSBC MF Schemes and hand over trusteeship of the L&T MF Schemes to HSBC Trustees, such that L&T MF Schemes will no longer form the trust property of L&T Mutual Fund on and from the

date of Completion (“**Completion Date**”) and take necessary action for de-registration of L&T Mutual Fund and subsequent dissolution of the trust constituted under the L&T Trust Deed.

Further, the L&T AMC will resign from and surrender its right to administrate, operate and manage the L&T MF Schemes and the HSBC AMC shall be appointed as the new asset management company of the L&T MF Schemes, which shall, in accordance with the MF Regulations and other regulatory and contractual formalities as may be applicable including the terms of the Agreement, assume the right to operate, administrate and manage the L&T MF Schemes (including obligations relating to investor grievances in respect of the L&T MF Schemes) as the new asset management company of the L&T MF Schemes. On Completion, L&T Sponsor will cease to be the sponsor of the L&T MF Schemes and the HSBC Sponsor shall become the sponsor of the L&T MF Schemes and be relieved of any future obligations in this respect.

As part of the Proposed Transaction, the certificate of registration issued by SEBI registering L&T Mutual Fund enabling it to act as a mutual fund shall be surrendered, and approvals granted to L&T AMC to act as the asset management company to L&T MF Schemes shall be withdrawn, by way of a separate application, and L&T AMC and L&T Trustee will exit the Indian domestic mutual fund asset management business. Accordingly, the investment management agreement dated October 23, 1996 (as amended from time to time) (“**L&T IMA**”) entered into between L&T AMC and L&T Trustee will be terminated by the parties in the manner envisaged in the Agreement and subsequently necessary steps shall be taken for the trust constituted under the L&T Trust Deed to be dissolved.

The HSBC AMC (on behalf of the HSBC Mutual Fund) will also amend, where necessary, the statement of additional information, the scheme information documents, the key information memoranda and other relevant documents relating to the L&T MF Schemes or the HSBC MF Schemes, to reflect the changes pursuant to the Proposed Transaction, which would come into effect from the Completion, including such changes as may be required to honour and recognise the rights and privileges of the Unit Holders as available to them under the relevant scheme information documents of the L&T MF Schemes prior to Completion. Therefore, Unit Holders should note and be assured that the Relevant Scheme will at all times be managed in the best interests of all Unit Holders.

With a view to enable you to make a well-informed decision on the matters set out hereinafter, we have set out in **Exhibit 3** hereto a brief background on HSBC Mutual Fund, the HSBC Sponsor, HSBC AMC and HSBC Trustees along with the details of the HSBC MF Schemes. NAV of Transferee Scheme – Growth Option on the date of merger (Rs. per unit)	D	15.00

Investment Value in Transferee Scheme – Growth, post-merger (f=d*e) (Rs.)	F	2,000.00

Please note that the aforesaid is only an illustration and the actual number of units to be allotted under the Surviving Scheme will be determined by the value of units held in the Transferor Scheme and the NAVs of the

Transferor Scheme and the Transferee Scheme on the Effective Date (as defined below). The impact of tax on capital gains and levy of stamp duty charges, if any, has not been considered in the above illustration.

- iv. SIP registered in the Transferor Scheme will continue under the Surviving Scheme, subsequent to the Changes to the Relevant Scheme. Unit Holders who do not wish to continue the SIP in the Surviving Scheme will be permitted to apply for cancellation of their SIP registration.

Please refer to the Notice dated October 15, 2022 as available on www.ltf.com, for the details relating to merger of other L&T MF Schemes and HSBC MF Schemes, changes to fundamental attributes of other L&T MF Schemes and other changes to L&T MF Schemes.

- iii. all responsibilities and obligations relating to investor grievances, if any, in respect of the L&T MF Schemes in accordance with, and pursuant to, the MF Regulations and various circulars issued thereunder.

EXPECTED BENEFITS OF THE PROPOSED TRANSACTION

Broadly, the Proposed Transaction is expected to result in the following benefits:

L&T Mutual Fund is an established mutual fund in India with an AUM of approximately INR 72,322.38 crores for the month ended September 30, 2022. The L&T Sponsor established its presence in the mutual funds industry through the acquisition of the mutual fund business of DBS Chola Mutual Fund in 2010 and Fidelity MF in 2012. The L&T Sponsor has demonstrated its ability to successfully integrate and grow acquired mutual fund portfolios. Since its acquisition of the mutual fund businesses of DBS Chola Mutual Fund and Fidelity Mutual Fund, the average AUM of L&T Mutual Fund has increased from approximately INR 2,520 crores (for the month of January 2010 for the erstwhile DBS Chola Mutual Fund) to approximately INR 72,322.38 crores for the month ended September 30, 2022 (Source: AMFI).

- a) The Proposed Transaction will help HSBC to increase foothold in the mutual fund industry in the near future and HSBC is committed to growth. The proposed sale of L&T Mutual Fund to HSBC Mutual Fund will increase the scale and resources of the entity and deliver a strong value proposition to all Unit Holders. The strength of the HSBC global brand and its strong track record in the area of investor care is expected to help enhance the investor experience of all Unit Holders.
- b) HSBC AMC has a long track record and has delivered reasonable return to its Unit Holders.
- c) The merger of L&T MF Schemes and HSBC MF Schemes would allow HSBC AMC and HSBC Trustees to avoid the existence of similar schemes in HSBC Mutual Fund and enable optimum utilization of resources and to present to the Unit Holders, a simplified range of schemes in the interest of the Unit Holders. It is therefore in the interest of the Unit Holders that the HSBC Trustees and the board of directors of HSBC AMC merge some of their schemes with those of the schemes of L&T AMC or vice versa.

EFFECTIVE DATE OF CHANGES TO THE RELEVANT SCHEME

The Changes to the Relevant Scheme are subject to Completion and will come into effect from the close of business hours on the date of Completion ("**Effective Date**").

Prior to the Effective Date, L&T AMC will issue a public notice informing the Unit Holders about the Completion and the Effective Date. Similarly, HSBC AMC will also inform the Unit Holders of HSBC MF Schemes about the Completion and the Effective Date.

The NAV applicable, should you choose to exercise the Exit Option would be based on the date/time of receipt of redemption/switch request during business hours on a business day. The Exit Option can be exercised within the Exit Option Period by submitting the normal redemption request at the nearest L&T MF Investor Service Centre/CAMS Service centres or through online modes or channel partners of the AMCs (Official point of acceptance), details of which are provided in Exhibit 1 hereto. The redemption requests received will be processed at the prevailing NAV without any exit load during the Exit Option Period. Please also note that upon Completion, the computation of NAV and valuation of investment of the Relevant Scheme will be as per the Valuation Policy adopted by HSBC AMC.

TAX IMPLICATIONS OF CHANGES TO THE RELEVANT SCHEME

There should not be any income-tax implications due to the merger/consolidation of the schemes (as described in paragraphs above on Changes to the Relevant Scheme) in the hands of Unit Holders since merger/consolidation of mutual fund schemes is considered as a tax neutral event. Transfer of units upon consolidation of mutual fund schemes of two or more schemes of equity-oriented fund or two or more schemes of a mutual fund other than equity oriented fund in accordance with the MF Regulations is exempt from capital gains i.e., any transfer of units of consolidating scheme of a mutual fund, made in consideration of the allotment of the units of the consolidated scheme by the Unit Holder is not considered as “transfer” by virtue of the provisions of Section 47(xviii) of the Income-tax Act, 1961 (the “IT Act”) and hence the gains on such transfer should not be chargeable to tax.

For any redemption/switch transactions post the merger/consolidation of the schemes (as described in paragraphs above on Changes to the Relevant Scheme), the following points are relevant for taxation (held as capital asset):

1. For the purpose of classifying the units of consolidated scheme into long term or short term, the period of holding of units acquired in the consolidation of schemes of mutual fund shall include the period for which units in consolidating schemes were held by the unitholder/investor in terms of the provisions of Section 2(42A) of the IT Act.
2. Further, Section 49(2AD) of the IT Act provides that the cost of acquisition of the units acquired in the consolidated scheme of mutual fund (in consideration of allotment of units of consolidating scheme) shall be deemed to be the cost of acquisition of the units in the consolidating scheme of mutual fund.

However, redemption and/or switch of units from the Relevant Scheme during the Exit Option Period shall be considered as redemption and will result in short term/long term capital gain/loss in the hands of the Unit Holders depending on the period of holding of the investment.

In case of NRI Unit Holders, TDS would be deducted in accordance with applicable tax laws for redemption/switch-out of units from the Transferor Scheme during the Exit Option Period and same would be required to be borne by such Unit Holder only.

Securities Transaction Tax (“STT”) on redemption / switch-out of units, if any, exercised during the Exit Option Period in the Relevant Scheme shall be borne by L&T AMC.

Stamp duty shall not be levied on the units allotted under the Surviving Scheme, upon the merger/consolidation of the schemes (as described in paragraphs above on Changes to the Relevant Scheme).

STT on extinguishment of units (if applicable) under the Transferor Scheme and allotment under the Surviving Scheme upon the merger/consolidation of the schemes (as described in paragraphs above on Changes to the Relevant Scheme), would not be levied to the Unit Holders .

In view of the individual nature of tax consequences, Unit Holders are advised to consult the professional financial/tax advisors with regard to tax and other financial implications arising out of their participation in Changes to the Relevant Scheme.

The Scheme is open-ended in nature and subject to daily inflows. There may be a time lag between the inflow of funds and their deployment in equities. If so desired, the Investment Manager would be able to take immediate exposure to equities via index futures. The position in index futures may be reversed in a phased manner, as the funds are deployed in the equity markets.</p> <p>Using Index Futures to decrease percentage investments in equities: Similarly, in the case of a pending outflow of funds or where a negative view is taken on the market, the Investment Manager, in order to reduce exposure in equities may 'sell the index forward' by taking a short position in index Futures. This position can be unwound over a period in time by simultaneously selling the equity shares from the investment portfolio of the Scheme. Since the price of the futures contracts is expected to be positively correlated with the index, the value of a short position will move in the direction opposite to the movement in the index. The strategy of taking a short position in the index future is a hedging strategy and reduces the market risk and volatility of the portfolio.</p>	<p>invest in equity and equity related instruments. A. Risk factors related to investments in Structured Obligations (SO) / Credit Enhancements (CE):

Structured Obligations (SO) are complex financial instruments issued by entities intending to improve their financing profile with the help of non-conventional financial instruments. Credit Enhancement (CE) rating is assigned by Credit Rating agencies to a debt security based on an identifiable credit enhancement for the security which could be in the form of letter of comfort, guarantee, shortfall undertaking etc. from another entity than the issuer, related or not related to the issuer. CE could additionally include pledging of equity shares listed on a stock exchange with a suitable haircut. Apart from standard risks related to debt instruments, these instruments are further exposed to the below risks:

Liquidity Risk: SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities generally lack a well-developed secondary market in India, and due to the credit enhanced nature of CE securities as well as structured nature of SO securities, the liquidity in the market for these instruments is shallow compared to similar rated conventional debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to exit such debt instruments when required and generate liquidity for the scheme or lead to higher impact cost when such instruments are sold impacting portfolio returns.

Credit Risk: Securities which have a structure with a guarantee from the corporate / promoter, may see an adverse effect if there are any signs of stress at the promoter / group level, even though the standalone borrowing entity's debt servicing capability and repayments may not see any material impact, from a future cash flow perspective. CEs are exposed to credit risk pertaining not only to the issuer of the security but also to the entity providing the credit enhancement. The credit risk of debt instruments which are CE rated is based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to inability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. Therefore, apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk

B. Risk factors associated with investments in Perpetual Debt Instruments (PDI) including Additional Tier-1 and Tier-2 bonds

The Scheme may invest in certain debt instruments with special features viz. subordination to equity (absorbs losses before equity capital) and /or convertible to equity upon trigger of a pre-specified event for loss absorption including Additional Tier I bonds and Tier 2 bonds issued under Basel III framework (known as perpetual debt instruments). PDIs are instruments issued by the borrower to strengthen their capital structure and as the name suggests these instruments do not have a specific maturity date but have an embedded call option instead and maybe less liquid than conventional debt instruments. These bonds are subordinate to all other debt and only senior to equity capital. The issuer may call or redeem the bonds on the call exercise date if they can refinance the issue at a cheaper rate, especially when interest rates are declining. The issuers of such instruments could be Banks, NBFCs and Corporates. PDIs issued by Banks and NBFCs fall under scope of Reserve Bank of India (RBI)'s guidelines for Basel III capital regulations. These are also referred to as Additional Tier I (AT1 bonds). However, there are no regulatory guidelines for issuance of PDIs by Corporates.

Since PDIs have special features other than usual non-convertible bonds, there are additional risks associated with such instruments which are listed below –

Risk related to coupon servicing –

Banks - As per the terms of the instruments, Banks may have discretion at all times to cancel distributions/payment of coupons. In the event of non-availability of adequate distributable reserves and surpluses or inadequacy in terms of capital requirements, RBI may not allow banks to make payment of coupons. These bonds may not be permitted to pay these coupons if the Bank's financial position improves subsequently (non-cumulative)

NBFCs - While NBFCs can defer/postpone payment of coupon in case paying the coupon leads to breach of capital ratios, they also have discretion at all times to cancel payment of coupon.

Corporates - Corporates usually have discretion to defer the payment of coupon. However, the coupon is usually cumulative and any deferred coupon shall accrue interest at the original coupon rate of the PDI.

Risk of write down or conversion to equity –

In the event of shortfall in maintenance of capital adequacy ratios and/or Point of Non Viability Trigger (PONV – a point defined by RBI when a bank is deemed to have become non-viable unless appropriate measures are taken to revive its operations or infusion of public sector capital), PDIs issued by Banks could be written down or converted to common equity. This risk does not exist in case of PDIs issued by NBFCs and Corporates.

Risk of call option not exercised by the issuer –

Banks and NBFCs - The issuing Banks and NBFCs have an option to call back the instrument after minimum period as per the regulatory requirement from the date of issuance and specified period thereafter, subject to meeting the RBI guidelines. However, if the issuer does not exercise the call on first call date, the Scheme may have to hold the instruments for a period beyond the first call exercise date and hence maybe

exposed valuation impacts.

Corporates – Unlike Banks and NBFCs there is no minimum period for call date for Corporate issuers. However, if the corporate does not exercise the call option, the Scheme may have to hold the instruments for a period beyond the call exercise date and hence maybe exposed to valuation impacts.

Risk Mitigation – The Scheme will not invest more than 10% of the NAV of the scheme in such instruments and will limit exposure to 5% of the NAV of the Scheme for such instruments issued by a single issuer.

Unit Holders

C. **Provisions related to REITs & InvITs**

Risks factors associated with investments in REITs & InvITs

Market Risk: REITs and InvITs Investments are volatile and subject to price fluctuations on a daily basis owing to the market conditions and factors impacting the underlying assets. AMC/Fund Manager's will do the necessary due diligence but actual market movements may be at variance with the anticipated trends.

Liquidity Risk: As the liquidity of the investments made by the Scheme(s) could, at times, be restricted by trading volumes, settlement periods, dissolution of the trust, potential delisting of units on the exchange etc. the time taken by the Mutual Fund for liquidating the investments in the scheme may be long in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk. As these products are new to the market, they are likely to be exposed to liquidity risk.

Reinvestment Risk: Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or dividend pay-outs, interest payments etc. Depending upon the market conditions, interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. As a result, the proceeds may get invested at a lower rate.

Credit Risk: REITs & InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be pre scheduled.

Regulatory / Legal Risk: REITs and InvITs being new asset classes, regulatory guidelines may be evolving in nature which may impact the investments in REITs and InvITs

Risks factors associated with investments in REITs & InvITs

Investment restrictions related to REITs & InvITs :

A mutual fund may invest in the units of REITs and InvITs subject to the following:

- (a) No mutual fund under all its schemes shall own more than 10% of units issued by a single issuer of REIT and InvIT; and
- (b) A mutual fund scheme shall not invest –
 - i. more than 10% of its NAV in the units of REIT and InvIT; and
 - ii. more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer.

Provided that the limits mentioned in sub-clauses (i) and (ii) above shall not be applicable for investments in case of index fund or sector or industry specific scheme pertaining to REIT and InvIT.

D. **Risk associated with short selling and securities lending**

Short Selling Risk: The risk associated with upward movement in market price of security sold short may result in loss. The losses on short position may be unlimited as there is no upper limit on rise in price of a security.

Securities Lending: The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.
