##### (ii) Future Market Outlook

###### Equity Market Overview and Outlook

After two years, the Nifty 50 Index ("Nifty") completed a full circle reaching the 9000 mark by year ended March 2017. The fiscal year started after a severe correction in all markets led mainly by commodities followed by equities, in the first quarter of the last calendar year. There were fears of recession in some of the key economies like US and a sharp slowdown in the Chinese economy which resulted in a bear market like fall in markets. However the new fiscal year started from that low point and closed the year at almost at an all-time high for the indices. With commodities forming a bottom, post announcements of shut down in capacities, equity markets responded positively especially the emerging markets.

Further, there were factors that kept a leash on sentiments like the US Presidential elections and expectations of further monetary tightening in the US. So the year was split in three parts. The first was a rally from the low point made towards the previous year end which saw a 16% rise in the Nifty by middle of September 2016. This was followed by a market correction which saw the Nifty drop 12% in anticipation of rising US interest rates. There was significant Foreign

Institutional Investor ("FIL") selling during this phase given some outflows from emerging markets. Then came the 17% rally in the last quarter of the year despite demonetization of high value currency and its impact. Overall the Nifty delivered a return of 19% in FY'17 after a decline of 9% in FY'16.

Valuations on a one year forward basis have remained roughly the same as March 2016 given that earnings growth has been flat. In fact, for the last three years, earnings growth has been negligible. In the last two year period, earnings have been impacted by several factors like the asset quality review of banks, correction in commodity prices, slowdown in discretionary consumption especially in the rural economy and lastly, demonetization. A very significant development for the Indian markets was the comeback of the domestic investor in this period. Domestic flows outpaced FIL flows in the last two years. FIL ownership of nifty stocks declined by 140bps compared to an increase of 190bps by domestic investors. This had a bearing on the structure of the market with sharp out performance of mid cap stocks over large cap stocks. As commodities started out performing, emerging markets did well. Additionally, economic data from some of the large economies like the US gave more fiscal boost. This resulted in a significant shift from 'high quality' which was the out performer over the last few years since the global financial crisis, to cyclicals and value stocks. This global phenomenon was reflected in the Indian markets as well. Energy, metals and mid & small caps in general were significant gainers during the last year, while the traditional defensive, quality sectors like IT and healthcare were under performers.

The fact that the macro backdrop remains conducive with fiscal and monetary metrics looking quite favourable, a strong show by the government in state elections, execution of tough economic measures which could result in long term gains for the economy have all fed into the momentum for this rally witnessed during the last year. With a rerating to higher than long period average valuations, now the focus has once again shifted to earnings growth. Earnings recovery is the key for further upsides from here as valuation upsides are limited. In this regard, this year's monsoon will be crucial given the slow recovery in the economy and the focus on the rural front. In the medium to long term, we see a better alignment of positive forces like higher global growth, recovery in earnings, economic reforms leading to significant benefits and a private sector capex cycle over time. We also see a continuing trend of domestic investor flows coming into equities either directly or through mutual funds. All this augurs well for equity investing in the country.

#### Debt Market Overview and Outlook

Indian government bonds have had a good year in FY17, with the first half seeing a secular decline in yields from 7.50% on April 1 to 6.18% in mid-November, while the latter half saw a great deal of volatility as well, with yields backing up to end the year at 6.70%. The Reserve Bank of India obliged the market by cutting the benchmark rate by 50 bps during the year via two such rate actions. However, the year was more about non-rate actions than actual Repo Rate decisions. Key events impacting markets include (1) Change of liquidity framework; (2) India DTAA being re-negotiated with Mauritius, Cyprus and Singapore; (3) Exit of Dr. Rajan and incoming of Dr. Patel as the new RBI Governor; (4) BREXIT; (5) Masala bond issuances finally taking off; (6) FCNR Deposits Redemption; (7) Election of Mr. Donald Trump as the next US President; and (8) Demonetization of high value currency in India.

Following the demonetization drive in November, Government bond yields touched almost an 8 year low, going back to levels last seen in 2008-09. However, into the last quarter, the RBI under the Monetary Policy Committee (MPC) format and under Governor Urjit Patel, quickly quashed any expectations of further rate cuts and ensured that the market got the message that RBI was serious about getting to its 4% CPI goal over the medium term. Yields accordingly backed up closer to the 7% zone, with spreads on various segments widening in response to the RBI hawkishness.

The RBI's April 2017 monetary policy review lived up to its recent track record of giving a nasty reality shock to the market. While the RBI kept its key policy repo rate unchanged at 6.25%, it tweaked the Liquidity Adjustment Facility (LAF) corridor from +/-50bps band to a narrower +/- 25bps band, with the lower boundary reverse repo rate moved up to 6%, and the upper penal MSF rate lowered to 6.5%. This was a response to tackle the abundant liquidity situation which had resulted in various short end rates such as CBLO and 3 month/1 year T-Bill rates much lower than the targeted level of 6.25%. Along with this, the RBI also said that a range of policy tools (MSS/CMBS, OMO sales and longer tenor LAF reverse repo operations) to suck out durable liquidity surplus would be used to ensure consistency of short end rates with their neutral stance on monetary policy. The RBI also moved up its CPI forecasts a notch to 4.5% average in H1 and 5% average in H2 2018, while also sounding a rather cautious note as far as expected inflation trends over the medium term, which continued to be above their targeted level of 4% that they have set out to achieve in a durable and calibrated manner. During the post policy call, the RBI very clearly expressed their displeasure on farm loan waivers. This, along with already high state government borrowings, clearly undermines the fiscal responsibility shown by the Centre and would eventually impact borrowing costs and fiscal credibility.

Markets reacted negatively to the above policy announcements, and yields backed up back to the highs seen in mid-march, with the 10 year moving back to 6.80%.

The markets continue to try to come to terms with the unfamiliar reality of stable policy rates with no rate cuts in the near horizon. Yield curve shape and spreads continue to reprice, and carry becomes the main game in town, and not capital gains - which has driven fixed income returns across fund categories over the past three years.

We expect the 10 year gsec to now hover in a range of 6.75-7.25% range, as the busy auction calendar of Centre and states swings into action, now with an added worry of possible OMO sales by the RBI later in the year. Abundant liquidity and deposits with the banking system should still provide a supportive bid for short to medium tenor bonds, as yields have now retraced high enough to make the carry attractive.

With banks having cut MCLR significantly, we expect credit spreads of medium tenor AA/AA- rated bonds to compress as banks compete with mutual funds for corporate bonds issued by good AA rated issuers.

#### (iii) Operations, Sales Offices and Investor Services

LTMF services its investors through its network of 63 equipped sales offices. Applications are accepted at 29 investor service centres and at other locations (around 200) applications are accepted by Computer Age Management Services Private Limited, the Registrar and Transfer Agent to the Schemes of LTMF ("CAMS").

#### (iv) Dividend

After considering the availability and adequacy of distributable surplus under the Schemes, dividends were declared under the Schemes as per the provisions contained in the respective scheme information documents.

## Independent Auditors' Report

To the Board of Directors of L&T Mutual Fund Trustee Limited

### Report on the Financial Statements

1. We have audited the accompanying financial statements of L&T Mutual Fund - L&T Infrastructure Fund, L&T Midcap Fund, L&T Tax Saver Fund, L&T Long Term Advantage Fund – I, L&T Equity Fund, L&T India Special Situations Fund, L&T Tax Advantage Fund, L&T India Prudence Fund, L&T Dynamic Equity Fund (Formerly Known as L&T India Equity and Gold Fund), L&T India Value Fund, L&T India Large Cap Fund, L&T Emerging Businesses Fund, L&T Arbitrage Opportunities Fund, L&T Business Cycles Fund and L&T Equity Savings Fund (the "Schemes"), which comprise the Balance Sheet as at March 31, 2017, and the related Revenue Account and Cash Flow Statement, where applicable, for the year then ended, and a summary of significant accounting policies and other explanatory information, which we have signed under reference to this report.

### Trustee's and Management's Responsibility for the Financial Statements

2. The Trustee of L&T Mutual Fund and the Management of L&T Investment Management Limited (the "Management") are responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Scheme in accordance with the accounting policies and standards specified in the Ninth Schedule of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and amendments thereto (the "Regulations"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

3. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence, about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Our procedures included confirmation of securities owned and unit capital balances as at March 31, 2017 by correspondence with the custodian/others and registrar and transfer agent, respectively. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Trustee and the Management, as well as evaluating the overall presentation of the financial statements.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion..

### Opinion

6. In our opinion, and to the best of our information and according to the explanations given to us, the accompanying financial statements give the information required by the Regulations in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:
  - (a) in the case of the Balance Sheet, of the state of affairs of the Scheme as at March 31, 2017;
  - (b) in the case of the Revenue Account, of the net surplus/deficit for the year ended on that date; and
  - (c) in the case of the Cash Flow Statement, where applicable, of the cash flows for the year ended on that date.

### Report on Other Legal and Regulatory Requirement

7. As required by section 55(4) of the Regulations, we report that:
  - (a) We have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit; and
  - (b) In our opinion, the Balance Sheet, Revenue Account and Cash Flow Statement, where applicable, dealt with by this report have been prepared in accordance with the accounting policies and standards specified in the Ninth Schedule of the Regulations.
8. As required by clause 5 (ii)(2) of the Eleventh Schedule to the Regulations, we report that the Balance Sheet, Revenue Account, and Cash Flow Statement, where applicable, dealt with by this Report are in agreement with the books of account of the Scheme.
9. In our opinion, the methods used to value non-traded securities as at March 31, 2017, as determined by L&T Investment Management Limited under procedures approved by the Trustee of L&T Mutual Fund in accordance with the guidelines for valuation of securities for mutual funds as mentioned in the Eighth Schedule of the Regulations issued by the Securities and Exchange Board of India, are fair and reasonable.
