

L&T Balanced Advantage Fund

An open-ended dynamic asset allocation fund

Manages allocation across unhedged equity, arbitrage opportunities and debt and money market instruments, which also makes it a tax efficient investment option

Potential to substantially improve risk adjusted return for medium to long term investors

5 REASONS TO INVEST IN L&T BALANCED ADVANTAGE FUND

Fund managers decide the asset allocation between equity and debt depending on prevailing market and economic conditions using valuation metrics like P/E and P/B

Strategy helps in taming the volatility significantly and helps investors participate in the long term growth potential of equities

Allows to overcome greed and fear cycle by using quantitative metrics to decide on asset allocation.

Nifty PE Trailing

This measure is calculated based on actual earnings. The historical trend gives a peek into how the index behaved in different market cycles

Nifty PE Forward

Forward P/E showcases the potential growth of the underlying earnings that compose the index in the future

Our New Approach

Nifty PB Trailing

For financial services companies, price-to-book value is a better metric to decide on valuation. With the Nifty constituting approx. 40% financial services; trailing PB gives a peek at performance across cycle

Nifty PB Forward

Forward P/B calculations gives a sense of what to expect from the future growth of the underlying assets

Who should invest?

- Investors looking to take advantage of changing market conditions by dynamically adjusting the asset allocation between equity & debt
- Investors sitting on sidelines, waiting for appropriate market valuation level to make investment in equities
- Investors planning for their long term financial goals such as retirement could look to invest through SIP or lump sum route
