

TRIPLE A'S, FOR A ROCK SOLID FOUNDATION.

FUND MANAGER'S OUTLOOK

This fund is ideally suited for investors who have an investment horizon of more than 3 years and can see through the Mark To Market volatility over the investment period. We believe rates on the longer end of the AAA yield curve are still attractive and offer good entry points with a potential to provide attractive capital gains over the course of the interest rate cycle. This fund can also be considered as an alternative investment option to tax free bonds as it has a relatively higher carry.
