HSBC Small Cap Fund

(An open ended equity scheme predominantly Investing in small cap stocks)

August 2026

Where others don't.

Why HSBC Small Cap Fund

HSBC Small Cap Fund invests in smaller size businesses in their early stage of development

Follows bottom-up stock selection using our proven investment approach

Small cap stocks aim to have a potential for growth in the long run

At least 65% exposure to small cap companies that comprises of companies from 251st onwards in terms of full market capitalization

These businesses may have better revenue and profit growth potential as compared to broader market.

Aims to invest in undervalued, under-owned, and under researched segments that may deliver in long run

The fund seek an exposure in small cap segment stocks for alpha generating opportunities in long run

The HSBC Small Cap fund focusses on buying smaller companies gaining market share within large industries, niche businesses or businesses which are currently small but have large opportunity to grow due to market factors.

Investment Objective

To generate long term capital growth from an actively managed portfolio of equity and equity related securities of predominantly small cap companies. However, it could move a portion of its assets towards fixed income securities if the fund manager becomes negative on the Indian equity markets. However, there can be no assurance or guarantee that the investment objective of the scheme would be achieved.
