Why HSBC Dynamic Bond Fund?

- The fund aims to generate alpha using all sources of generating returns: Yield accruals through high quality credit selection and active duration management.
- The fund follows active duration management along with dynamic asset allocation
- The fund is ideal for investors seeking appropriate risk adjusted returns in a volatile interest rate environment.
- In the current scenario where interest rates are nearing the peak in this cycle, there may be opportunities to capture alpha through strategic overweight duration in this fund.

Fund Approach

- Actively managed fund investing across the yield curve in Govt. Securities and high-quality AAA rated credits to generate alpha
- Dynamic duration management to seize potential upsides when interest rates are expected to soften while also reducing risks in an uncertain environment
- Diversified portfolio spread across government securities, corporate bonds and money market instruments.
- Aims to Invest in a liquid portfolio to enable positioning changes based on evolving scenario.
