A scheme with an active mix of Arbitrage and Actively managed exposure across high quality debt funds.

HSBC Income Plus Arbitrage Active FoF*

(An open-ended Income plus Arbitrage Active Fund of Fund scheme)

Arbitrage (35-45%)	Active Debt allocation (55-65%)
100% Hedged Equity Exposure	- High Asset quality (100% Sovereign / AAA) - Active allocation across debt fund categories across maturities depending on the macro view and interest rate scenario

¹ As per clause 1.9 of the SEBI Master Circular for Mutual Funds no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90d dated June 27, 2024, on 'Guiding Principles for bringing uniformity in Benchmarks of Mutual Fund Schemes' has introduced two-tiered structure for benchmarking of certain categories of schemes. Accordingly, the benchmark has been classified as Tier 1 benchmark. Furthermore, the same is effective from 01 December 2021.² AUM is as on 30 April 2025.

² For disclosure of quarterly AUM/AAUM and AUM by geography, please visit our website: <https://www.assetmanagement.hsbc.co.in/en/mutual-funds/investorresources/information-library#&accordion1446811090=4>

Fund of Fund (FOF) Note - The investors are bearing the recurring expenses of the scheme, in addition to the expenses of other schemes in which the Fund of Funds Scheme makes investments. Note : Please refer to Scheme Information Document for more details on Asset Allocation of the scheme.

- HSBC Income Plus Arbitrage Active FoF allows the Fund Manager to switch between debt schemes without any tax incidence to adapt to market conditions – thereby optimizing capital gains for investors
- Aims to offer reasonable returns compared to an only debt-strategy with better tax-efficiency (12.5% with a 2-year investment horizon)

Investment Objective

- The investment objective is to generate income / long-term capital appreciation by investing in units of debt-oriented and arbitrage schemes and money market instruments. However, there is no assurance that the investment objective of the Scheme will be achieved.

Our Philosophy

- Focus on investors' risk profile to meet the needs and preference of investors
- Deliver solutions through Fund of Funds (FoF) feeding into HSBC/third party funds
- Active investment opportunity supported by variety of debt schemes across maturity, credits and investment strategies

Why HSBC Income Plus Arbitrage Active FoF?

- To benefit from exposure to arbitrage and debt-oriented schemes with the aim to capture the opportunities offered by Indian debt markets
- True to label fund – The fund will stay true to its objective in keeping with the mandate reposed by the investor whilst investing in the fund
- Dynamic management of maturity through underlying scheme selection to generate alpha and capture accrual opportunities

Top-down assessment continues to suggest a positive bias for interest rates

- Macro economic factors along with liquidity measures by RBI positive for rates
- Repo cut by 25 bps in Apr-2025 by the MPC along with stance change to ‘accommodative’ paves way for further easing
- We expect at least another 50 bps of easing in policy rates going forward
- Attractive corporate bonds spreads pose the opportunity to capture spread compression

Data as on 30 April 2025, Please refer Scheme Information Document (SID) for more details on scheme.
