INDIA is one of the fastest growing economies in the world. The role of infrastructure is paramount and foundation stone for any economy to drive forward. Thus, the government has reiterated its focus on infrastructure sector in Union Budget 2022 and proposed a robust infrastructure spending in fiscal 2022-23 which is expected to positively influence the prospects of the companies in the core infrastructure and allied sectors.

HSBC Infrastructure Fund that endeavours to invest in companies that could gain from the government's policies on infrastructure growth and economic reforms that could directly feed off its growth.

Why HSBC Infrastructure Fund?

- To create wealth over a long-term from the infrastructure growth in India
- A top down and bottom up approach will be used to invest in equity and equity related instruments
- To create a corpus through generating inflation-adjusted returns to cater to long-term goals

Fund Philosophy

- It is a pure infrastructure sector based fund and thus, focuses on investing in the stocks and sectors that could benefit from India's infrastructure growth while staying away from other sectors as a proxy to infra play.
- The fund offers flexibility to the fund manager to invest across market cap segments and sectors, thus allowing it to tap investment opportunities and provide sufficient diversification across infrastructure and related sectors.
- It invests in well researched stocks and segments within the infrastructure space that have scalable businesses with robust growth potential at reasonable valuations.
- The fund has a long term track record and is well positioned to help boost performance of the investor's portfolio as it has the potential to significantly outperform the broader market over the long term.

Investment Objective

To generate long term capital appreciation from an actively managed portfolio of equity and equity related securities by investing predominantly in equity and equity related securities of companies engaged in or expected to benefit from growth and development of Infrastructure in India. However, there can be no assurance or guarantee that the investment objective of the scheme would be achieved.
