Equity & Hybrid Funds Snapshot

November 2023

Short-term volatility is an intrinsic part of equity investments but long-term investment tend to pay off

BSE Sensex	3-year rolling returns	5-year rolling returns	7-year rolling returns	10-year rolling returns	15-year rolling returns
Average rolling period returns	16.27%	15.88%	15.46%	15.35%	14.66%
Total time periods (monthly rolling)	487	463	439	403	343
Total number of positive returns*	436	430	414	400	343
Total number of negative returns^	51	33	25	3	0
Positive investment periods	90%	93%	94%	99%	100%

Notes:

Monthly rolling returns for respective holding periods since 30 June 1979. For instance, in case of 15-year monthly rolling returns, there will be 343 return periods. The first return period will be 30 June 1979- 30 June 1994 and the last return period will be 31 Dec 2007- 31 Dec 2022.

* Positive returns – The number of investment periods during which returns have been positive. For example, when investment returns have been computed for a 15-year rolling period, 343 months out of 343 instances offered positive returns (i.e. 100% positive investment periods).

^ Negative returns – Number of investment periods during which returns have been negative. For example, where investment returns have been computed for a 5-year rolling period, 33 months offered negative returns (losses), the number of negative returns = 33

Large Cap Fund	Neelotpal Sahai and Gautam Bhupal	Nifty 100 TRI	10 Dec 2002	Rs. 1502.31 Cr

Why HSBC Large Cap Fund?

- To seek an exposure to true large cap companies
- A top down and bottom up approach will be used to invest in equity and equity related instruments
- True to label fund – The fund will stay true to its objective in keeping with the mandate reposed by the investor whilst investing in the fund
- Aim to create a corpus through generating inflation-adjusted returns to cater to long-term goals

Fund Philosophy

- Prefer dominant and scalable businesses available at reasonable valuations.
- Profit pool consolidation with dominant players to continue and disruption to accelerate this shift.
- Stock selection focuses on earnings growth trajectory and within that, the emphasis lies on earnings surprises.
- Since valuations are in line with its historical averages, earnings visibility and relative earnings growth are the key criteria of stock selection.

Investment Objective

- To generate long-term capital growth from an actively managed portfolio of equity and equity related securities of predominantly large cap companies. However, there can be no assurance or guarantee that the investment objective of the scheme would be achieved.

Small Cap Fund	Venugopal Manghat, Cheenu Gupta [@] and Sonal Gupta [#]	NIFTY Small Cap 250 TRI	12 May 2014	Rs. 11551.58 Cr

Why HSBC Small Cap Fund?

- Small cap stocks aim to have a potential for growth in the long run.
- HSBC Small Cap Fund invests in smaller size businesses in their early stage of development
- These businesses may have growth potential in revenue and profits as compared to broader market.
- The fund seeks an exposure in small cap segment stocks for alpha generating opportunities
- Follows bottom-up stock selection using our proprietary investment approach
- At least 65% exposure to stocks beyond the top 250, in terms of market capitalization
- Aims to invest in undervalued, under-owned, and under researched segments that may deliver growth
- Valuation is the most important key – focus on investing in stocks with an adequate margin of safety

Fund Philosophy

- Follows bottom-up stock selection using our proprietary investment approach
- Valuation is the most important key – focus on investing in stocks with reasonable valuations

Investment Objective

- To generate long term capital growth from an actively managed portfolio of equity and equity related securities of predominantly small cap companies. However, it could move a portion of its assets towards fixed income securities if the fund manager becomes negative on the Indian equity markets. However, there can be no assurance or guarantee that the investment objective of the scheme would be achieved.

Large & Mid Cap Fund	Cheenu Gupta and Neelotpal Sahai	NIFTY Large Midcap 250 TRI	28 Mar 2019	Rs. 2301.63 Cr

Why HSBC Large and Mid Cap Fund?

- To achieve relatively lower volatility and performance consistency with optimal allocation to large caps
- A top down and bottom-up approach will be used to invest in equity and equity related instruments
- True to label fund – The fund will stay true to its objective in keeping with the mandate reposed by the investor whilst investing in the fund
- Aim to create a corpus through generating inflation-adjusted returns to cater to long-term goals

Fund Philosophy

- Prefer dominant and scalable businesses available at reasonable valuations
- Profit pool consolidation with dominant players to continue and disruption to accelerate this shift
- Stock selection focuses on earnings growth trajectory and within that, the emphasis lies on earnings surprises
- We would be looking to be in large caps where scale will be an advantage (like banks), while midcaps will be sector leaders or niche players in their respective business.
- For example, specialty chemicals, tiles etc. In some cases, like real estate (which is a regional market share consolidation play), we have a mix of large and mid-cap players

Investment Objective

- To seek long term capital growth through investments in both large cap and mid cap stocks. However, there is no assurance that the investment objective of the Scheme will be achieved.

HSBC Multi Cap Fund (HMCF)

(Multi Cap Fund - An open ended equity scheme investing across large cap, mid cap, small cap stocks)

Fund snapshot

Fund Category	Fund Manager	Benchmark ¹	Inception Date	AUM ^{&}
Multi Cap Fund	Venugopal Manghat, Neelotpal Sahai [@] , Kapil Punjabi and Sonal Gupta [#]	NIFTY 500 Multicap 50:25:25 TRI	30 Jan 2023	Rs. 1780.82 Cr

Why HSBC Multi Cap Fund?

- The fund invest across Large, Mid and Small Caps
- Aim to focus on smaller size businesses in their early stage of development that have potential for growth in the long run
- Focus on growth potential in revenue and profit opportunities as compared to broader market
- Follows bottom-up stock selection using proprietary investment approach
- Aims to invest in undervalued, under-owned, and under researched segments that may deliver growth in long run
- Valuation is the most important key focus while investing in stocks

Fund Philosophy

- Bottom-up stock picking is rewarding across cycles
- Various phases of the economic cycle throw up diverse stock picking opportunities
- In a growing economy, some companies exhibit better growth and earnings visibility irrespective of the business cycle
- Business cycles and macros driving them can be directional indicators but ultimately stock selection will lead to returns
- Strong franchises thrive in bad macros
- Bad macro-economic conditions are a blessing for good franchises
- For e.g rising cost of inputs forces weaker players in an industry to close capacity. This helps stronger / organized players to gain market share and dominate the industry
- Consumer staples companies do well generally in a high inflation environment. Similarly, rising crude prices have helped Paint companies even as their input prices have risen multifold

Investment Objective

- The investment objective of the fund is to generate long-term capital growth from an actively manage portfolio of equity and equity related securities across market capitalization. However, there can be no assurance or guarantee that the investment objective of the scheme would be achieved

Flexi Cap Fund	Venugopal Manghat And Neelotpal Sahai [@]	NIFTY 500 TRI	24 Feb 2004	Rs. 3504.18 Cr

Why HSBC Flexi Cap Fund?

- To seek an exposure to any one or all across market capitalisations in the portfolio to get a value from opportunities in small, mid and or large cap segments
- True to label fund – The fund will stay true to its objective in keeping with the mandate reposed by the investor whilst investing in the fund
- Aim to create a corpus through generating inflation-adjusted returns to cater to long-term goals

Fund Philosophy

- Prefer dominant and scalable businesses available at reasonable valuations
- Profit pool consolidation with dominant players to continue and disruption to accelerate this shift
- Stock selection focuses on earnings growth trajectory and within that, the emphasis lies on earnings surprises

Investment Objective

- To seek long term capital growth through investments made dynamically across market capitalization (i.e., Large, Mid, and Small Caps). The investment could be in any one, two or all three types of market capitalization. The Scheme aims to predominantly invest in equity and equity related securities. However, in line with the asset allocation pattern of the Scheme, it could move its assets between equity and fixed income securities depending on its view on these markets. However, there can be no assurance or guarantee that the investment objective of the scheme would be achieved.

Thematic Fund	Gautam Bhupal, Venugopal Manghat and Sonal Gupta [#]	NIFTY 500 TRI	20 Aug 2014	Rs. 620.38 Cr

Why HSBC Business Cycle Fund?

- Long-term capital appreciation
- Aim to build a portfolio of predominantly equities with focus on riding business cycles
- Dynamic allocation between cyclical and defensive sectors and stocks at different stages of business cycles in the economy
- Aim to create a corpus through generating inflation-adjusted returns to cater to long-term goals

Fund Philosophy

- HBCF focuses on riding business cycles by strategically changing allocation between various sectors and stocks at different stages of business cycle in the economy
- The fund has the flexibility to invest across the market capitalization spectrum.
- Within a sector, the fund prefers dominant and scalable businesses available at reasonable valuations

Investment Objective

- The investment objective of the Scheme is to seek to generate long-term capital appreciation from a portfolio of predominantly equity and equity related securities, including equity derivatives, in the Indian market with focus on riding business cycles through dynamic allocation between various sectors and stocks at different stages of business cycles in the economy. The Scheme could also additionally invest in Foreign Securities. There is no assurance that the objective of the Scheme will be realised and the Scheme does not assure or guarantee any returns.

HSBC Value Fund (HVAF)

Value Fund - An open ended equity scheme following a value investment strategy

Fund snapshot

Fund Category	Fund Manager	Benchmark ¹	Inception Date	AUM ^{&}
Value	Venugopal Manghat, Gautam Bhupal [@] and Sonal Gupta [#]	Nifty 500 TRI	8 Jan 2010	Rs. 9288.69 Cr

Why HSBC Value Fund?

- To seek an exposure to value style companies
- Aim to identify undervalued stocks having the potential to deliver long term risk-adjusted returns
- Undervalued stocks would include stocks which the Fund Managers believe are trading at less than their assessed values
- Long term capital appreciation
- Aim to create a corpus through generating inflation-adjusted returns to cater to long-term goals

Fund Philosophy

- Diversified equity fund with strong value bias that aims to deliver long term reasonable risk adjusted returns
- Focus on identifying valuation anomalies versus the economic potential of the business over the medium term
- Aims to minimize portfolio risk by investing in quality companies, monitoring corporate fundamentals closely
- The fund looks to invest in fundamentally strong companies that the fund manager believes are trading at less than their assessed values thus offering higher upside potential
- This approach not only helps in identifying undervalued stocks but also factor-in the risk elements while picking stocks

Investment Objective

- The investment objective of the Scheme is to generate long-term capital appreciation from a diversified portfolio of predominantly equity and equity related securities, in the Indian markets with higher focus on undervalued securities. The Scheme could also additionally invest in Foreign Securities in international markets.

Equity Linked Savings Scheme	Cheenu Gupta, Gautam Bhupal and Sonal Gupta [#]	NIFTY 500 TRI	27 Feb 2006	Rs. 3191.28 Cr

Why HSBC ELSS Tax Saver Fund?

- To save taxes under Section 80C of Income Tax Act*
- The investment approach is bottom-up stock picking. The Scheme seeks to add the opportunities that the market presents, without any sector/cap bias
- Bottom-up stock picking: The Scheme focuses on bottom-up stock picking (i.e. focusing solely on prospects of individual stocks) as opposed to a top-down approach (i.e. predicting macro-economic and political trends, themes/sectors and taking investment decisions based on them)
- No cap bias: It will seek to identify the best stocks at a point in time, regardless of any market cap bias.
- Aim to create a corpus through generating inflation-adjusted returns to cater to long-term goals

Fund Philosophy

- The fund aims for bottom-up investment approach for stocks' and companies' selection for a well-diversified quality portfolio
- The 3 year lock-in helps the fund manager take positions in stocks with longer term potential
- The scheme focuses on delivering risk-adjusted performance over the long term coupled with tax saving under section 80C makes it an attractive investment option for long term investors
- The fund has a proven long-term track record across various time periods / market cycles
- The fund with its flexible investment approach of investing across the market spectrum, has stood the test of time and has a proven track record of over 10 years

Investment Objective

- The investment objective of the Scheme is to generate long-term capital growth from a diversified portfolio of predominantly equity and equity-related securities. There is no assurance that the objective of the Scheme will be realised and the Scheme does not assure or guarantee any returns. For defensive considerations and/or managing liquidity, the Scheme may also invest in money market instruments.

Balanced Hybrid Fund – An open ended dynamic asset allocation fund.

Fund snapshot

Fund Category	Fund Manager	Benchmark ¹	Inception Date	AUM ^{&}
Balanced Hybrid Fund	Neelotpal Sahai, Gautam Bhupal [@] , Praveen Ayathan [@] , Hitesh Gondhia [@] , Mahesh Chhabria and Sonal Gupta [#]	NIFTY 50 Hybrid Composite Debt 50:50 Index	7 Feb 2011	Rs. 1323.06 Cr

Why HSBC Balanced Advantage Fund?

- Asset allocation between equity and debt depending on prevailing market and economic conditions
- Aims to build a portfolio of companies diversified across major industries, economic sectors and market capitalization that offer an acceptable risk reward balance
- Investment in debt securities will be guided by credit quality, liquidity, interest rates and their outlook
- To grab opportunity from both asset classes of equity and fixed income for an optimal asset-allocation portfolio
- Aim to create a corpus through generating inflation-adjusted returns to cater to long-term goals

Fund Philosophy

- The fund may help investors participate in the long term growth potential of equities but with a much lower short term volatility
- The Fund helps in systematically managing equity allocation based on valuations and keep emotions away from asset allocation decisions
- History suggests that sharp corrections in the market typically occur when equity valuations are expensive. Due to the fund's strategy of maintaining low equity allocation at higher valuation levels, it may help reduce downside significantly during such market corrections
- Potential to improve risk adjusted return for medium to long term investors; active stock picking approach for equity allocation
- The Fund provides a tax efficient and cost efficient dynamic asset allocation solution – taxation similar to equity oriented schemes

Investment Objective

- To seek long term capital growth and income through investments in equity and equity related securities and fixed income instruments. There is no assurance that the objective of the Scheme will be realised and the Scheme does not assure or guarantee any returns.
