Dear Investor,

As we reflect on the past year, I am filled with pride and optimism about the future of our company and overall growth of the mutual fund industry. The past year has marked significant milestones in our journey, particularly as we capitalise on the immense potential of India's burgeoning growth story.

Fiscal 2024 turned out to be one of the best years for the domestic mutual fund industry as assets under management (AUM) spurted by nearly Rs. 14 lakh crore to a record Rs. 53.40 lakh crore as of March 2024 compared with Rs. 39.42 lakh crore as of March 2023.

The mutual fund industry is experiencing immense growth and we are poised to take advantage of this upward trajectory. Our company is an integral part of this growth story, riding the wave with several strategic initiatives and accomplishments that have set us on a path of sustained success.

Major achievements post integration

- Post integration we have enhanced our digital offering for both B2B and B2C to provide improved customer journeys.
- HSBC AM India's AUM increased from USD 1.4 bn (before integration) to USD 13.7 bn as of April 2024.
- HSBC Asset Management India has now become the 14th largest asset manager in India in terms of AUM.
- HSBC AM India has launched 4 new products since integration (raising \$445M).
- We have expanded HSBC AM India's product offerings to 43 funds.

Key Achievements in FY2023-2024

Investment Performance: Our disciplined investment strategy and thorough research have been pivotal to our success. We have focused on high-quality, undervalued assets, achieving consistent returns across our portfolio.

Product Innovation: This year, we launched two new funds - HSBC Multi Asset Allocation Fund and HSBC Consumption Fund, tailored to meet the evolving needs of our investors. These new offerings have been well-received, contributing to our growth in AUM significantly.

Increased Media Presence: In FY24, we significantly boosted our media presence, ensuring that our brand and thought leadership are recognized across various platforms. Through strategic media engagements like Informed Investing with ET Now, talks shows and several authored articles plus interviews - we have amplified our message, reaching a broader audience and reinforcing our market position.

Successful Campaign Launch: We successfully launched SIP Hai #FaydeWaliAadat, an investor education campaign, that highlighted the transformative power of SIPs in achieving long-term financial

goals. A first of its kind campaign, it aimed at educating and empowering the millennial investors in India. The campaign garnered significant attention and positive feedback, strengthening our brand presence and engaging a wider audience. Notably, the campaign has also earned us prestigious awards and accolades highlighting our commitment to excellence and innovation.

Client Relationships: We have strengthened our client relationships through enhanced communication, transparency, and personalized service. Our client satisfaction scores have reached new heights, reflecting our commitment to exceptional service.

We believe that the India story has just begun and its economic landscape is poised for significant growth. An exposure to unique and future relevant themes can provide a much-needed inflation buffer. The importance of asset allocation continues to be critical. It is critical for all of us to review our risk appetite and goal proximity and construct a portfolio appropriately.

Besides construction, portfolio rebalancing is equally important in order to achieve optimal outcomes. I do hope you share my enthusiasm and I ask that you continue to invest whilst reviewing your asset allocation at all times.

I would like to express my sincere gratitude to our dedicated team, whose expertise and commitment are the backbone of our success. To our investors, thank you for your trust and continued support. Your confidence in our approach motivates us to strive for excellence in everything we do. Also, I want to express my deepest gratitude to our valuable partners for their unwavering support and keep our services running. Look forward to achieving even greater milestones together.

As we move forward, we remain committed to delivering superior investment performance, fostering strong client relationships, and driving sustainable growth. Together, we are well-positioned to navigate the future and achieve our goals.

Warm regards,

Kailash Kulkarni

Chief Executive Officer

Trustees' Report

For the year ended March 31, 2024

The Board of Directors of HSBC Trustees (India) Private Limited, Trustees of HSBC Mutual Fund present the Twenty Second Annual Report and the audited abridged financial statements of the schemes of the HSBC Mutual Fund ("the Fund") for the year ended March 31, 2024.

With the acquisition of L&T Mutual Fund in the previous financial year, the Fund's Assets Under Management ('AUM') (excluding Domestic FOFs) as on March 31, 2024 was INR 109368.16 crores (audited). The Fund ranks in the top 15 Mutual Fund houses in India in terms of AUM.

As at March 31, 2024, the Fund offered 43 schemes across asset classes to meet the varying investment needs of the investors. During the year, the Fund launched two new products namely HSBC Consumption Fund and HSBC Multi Asset Allocation Fund in Equity and Hybrid categories.

The Fund continues its focus on delivering consistent long-term returns. The comments on the performance of the scheme(s) are provided hereinafter. Dividends were declared under various schemes as per the provisions contained in the respective Scheme Information Documents after considering the distributable surplus available under the respective plans of the schemes. Details of dividends declared can be viewed on our website at www.assetmanagement.hsbc.co.in.

During the year, HSBC Securities and Capital Markets (India) Private Limited ("HSCI"), Sponsors of the Fund established a private limited company with limited liability to act as the "Trustees" of the Fund. HSBC Trustees (India) Private Limited ("HTIP") was incorporated on 9 January 2024. Accordingly, HTIP has replaced the Board of Trustees of HSBC Mutual Fund w.e.f. 1 March 2024, and the Company through its Board of Directors has been discharging its obligations as the "Trustees" of the Fund from this date.

➤ Equity Scheme

HSBC Nifty 50 Index Fund ('HNI-50')

(Index Fund - An open-ended Equity Scheme tracking NIFTY 50 Index)

The scheme has adopted a passive investment strategy. The scheme invests in stocks comprising the Nifty 50 index in the same proportion as in the benchmark index with the objective of achieving returns equivalent to the Total Returns Index of Nifty 50 index by minimizing the performance difference between the benchmark index and the Scheme. The Total Returns Index is an index that reflects the returns on the index from index gain/loss plus dividend payments by the constituent stocks. There is no assurance that the investment objective of the Scheme will be realized.

The net assets of HNI-50 amounted to INR 244.97 crores as at March 31, 2024 as against INR 165.04 crores as at March 31, 2023. Around 99.79% of the net assets were invested in equities, 0.34% of the net assets were invested in reverse repos/TREPS and (0.13%) in net current assets as at March 31, 2024.

HNI-50 invests predominantly in stocks constituting the underlying index in the same proportion as in the Index and endeavors to track the benchmark index. A very small portion (0-5% of the Net Assets) of HNI-50 may be kept liquid to meet the liquidity and expense requirements.

b. Market Overview & Outlook (as furnished by HSBC Asset Management (India) Private Limited)

➤ EQUITY OUTLOOK

Recap of FY 2023-24:

FY24 was a stellar year for the Indian equity markets with strong economic momentum, healthy earnings growth and strong inflows from domestic and foreign institutional investors and strong retail participation driving a broad-based bull market. The Nifty and Sensex were up a solid 30.1%/26.5% respectively during the year, while the BSE Midcap and BSE Smallcap indices gained an astounding 65.2% and 61.4% respectively.

While geo-political conflicts continued in FY24, their impact on crude and global supply chains moderated. Crude prices largely remained range bound during the year. Inflation barring a brief spike largely remained well contained, the economy gained further steam with GDP growth crossing 8% in H1FY24 supported by government thrust on infrastructure. This translated into strong growth for several core sector industries including steel and cement. The growth in the real estate sector has been strong with inventory continuing to decline in metro markets. However, lagged impact of price increases continued to impinge on consumer demand growth which remained subdued for most mass market categories.

Domestic cyclicals were the best performing sectors during the year led by Real Estate, Capital Goods, Autos. Power was also among the best performing sectors. Global cyclicals like Metals and Oil & Gas also strongly outperformed the Nifty. FMCG and Banking while delivering healthy positive returns underperformed the Nifty, while IT performance was closer to Nifty.

MSCI India index outperformed most of key global indices during the past fiscal. MSCI India index (USD) gained 35.5% as compared to 23.1% gain for MSCI World, 27.9% for US S&P 500, 11.0% for MSCI Europe and only 5.3% for MSCI Emerging Markets as MSCI China declined 19.0% over the period.

Trustees' Report

For the year ended March 31, 2024 (Contd...)

Strong performance of the market and subsiding global macro headwinds drove a sharp turnaround in foreign investment flows. FII net inflow was at USD 25.3bn in FY24 versus an outflow of USD 6.0bn/17.1bn in FY23/FY22. DIIs, on the other hand, matched FII inflow with an inflow of USD 25.3bn although it was lower than the net inflows at USD 30.8bn in FY23. Within DIIs, the MF segment was the key contributor (USD 24.3 bn of net inflows up from USD 21.8bn in FY23) while domestic Insurers were also in the net inflow territory (USD 1.0bn of net inflows vs USD 9.0bn in FY23).

Way forward:

The global macro environment remains challenging with heightened geo-political and economic uncertainties. US bond yields remain high putting pressure on interest rates and currencies globally. For India, growth has continued to remain strong with GDP growth of 8.4% in Q3FY24 driven by strong government spending on infrastructure and pickup in manufacturing and construction. The 2024 interim budget has re-affirmed government focus on infrastructure. At the same time reduction in fiscal deficit should also help in easing of domestic interest rates. However, after last year's patchy monsoon, a good monsoon will be an important factor for rural demand and overall consumption growth in the economy in FY25.

India starts FY25 on a strong footing with positive growth momentum and India's investment cycle is expected to be on a medium-term uptrend supported by rising government investment in infrastructure and recovery in real estate cycle. There is also an expectation of higher private investments in renewable energy and related supply chain, localization of higher-end technology components, and India becoming a more meaningful part of global supply chains. Finally, it is expected for consumption to improve as the impact of high inflation fades and real incomes start to grow again.

However, several of these positives are getting discounted by the high valuations currently prevailing in the equity market. While the fund managers remain constructive on Indian equities supported by the more robust medium-term growth outlook there is a caution against high return expectations. Nifty continues to trade on 20.6x consensus 1 year forward PE (as of 30 April). On a 10-year basis, Nifty is still trading 10% above its historic average valuation but is in-line with its 5-year average. Valuations of the midcap and small cap indices are even higher versus their historical average.

➤ DEBT OUTLOOK

Market drivers during the course of the year FY 2024

The year started with advanced economies continuing to grapple with higher inflation and policy tightening remained a common theme across economies. During FY2024, the Federal Open Market Committee (FOMC) raised policy rates by 50 bps while European Central Bank (ECB) and Bank of England (BOE) raised policy rates by 100 bps each. The cumulative rate hikes by various advanced economies in this cycle are as follows:

Trustees' Report

For the year ended March 31, 2024 (Contd...)

Fed (525 bps), BOE (515 bps) and ECB (450 bps). Meanwhile cumulative rate hikes by the Monetary Policy Committee (MPC) in this cycle was 250 bps. On account of higher Government debt burden, Fitch downgraded US sovereign rating from AAA to AA+. US Treasury yields remained volatile during the year, with the 10-year benchmark rising higher by 73 bps during the year. Crude prices also moved higher by USD 7-8/bbl.

On the domestic front, Consumer price Index (CPI) inflation remained broadly in the upper end of the MPC's targeted band of 4% +/- 2% for most the financial year, however, inflation printed above 6% on two occasions due to high food inflation. Headline inflation remained susceptible to high food inflation with markets now expecting some relief of food prices on the back of normal monsoon. Core inflation eased through the year falling to below 4% in the last quarter.

Domestically, one of the biggest events during the year was the much-awaited index inclusion of Indian Government Bonds (IGBs) into the GBI-EM Global index suite and its relevant benchmarks. India is expected to reach the maximum weight of 10% in the GBI-EM Global Diversified Index (GBI-EM GD), with the inclusion staggered over a 10-month period starting June 2024. Following this, Bloomberg also included IGBs in their Bloomberg EM Local Currency Index, with India expected to reach a maximum weight of 10% over a 10-month period starting Jan 2025. Both these inclusions are expected to bring in INR 25-30 bn of index related FPI inflows over the next 1-2 years and paving the way for inclusion into other global bond indices as well. During FY2024, FPIs poured in close USD 12 bn into IGBs, with majority of the inflows coming in post the JP Morgan index inclusion announcement.

Government continued its path of fiscal consolidation, with the revised estimate of the Fiscal deficit for FY2024 coming in at 5.6%, with expectations for FY2025 at 5.1% and target of below 4.5% by FY2026. PMI numbers continue to remain in expansion, GST revenues remain buoyant and credit off-take upbeat.

The external sector has remained strong due to healthy service exports and remittances. Current Account Deficit (CAD) is expected to be around 1% for the year. Rupee remained one of the more stable currencies during the year, with active intervention from RBI smoothening any volatility. RBI continued to build on the FX reserves with year-end number around USD 650 bn.

Money market rates moved higher during the year due to tightening in liquidity along with higher Certificate of Deposit (CD) issuances. G-Sec yields, however, moved lower due to favorable demand supply and lower G-Sec borrowing. 10-year G-Sec moved lower during the year by 25 bps, while 5 yr G-Sec moved lower by 13 bps.

Market Outlook

While US markets have braced for "higher for longer" rates, we have seen in the past, that reactions to favorable data in such an environment can be sharp. Any softness in growth, employment or inflation data over the next few months will allow the markets to quickly start pricing in aggressive future policy easing. In our view, the RBI is also likely to gradually shift the liquidity deficit into surplus over the course of the next 3-6 months, flipping overnight rates from the top to the bottom of the rate corridor. The yield curve is likely to steepen as liquidity eases. This along with a potential 50 bps of policy easing in first half of CY2025 may push overnight rates lower by 75-100 bps.

While any form of additional spending by the new Government to address concerns of rural sections of the country and the possibility of additional spending to fund such policies will remain a key monitorable, it is believed the Government is likely to remain cognizant of the possible impact of such policies and take measured steps. With the dust settling down on the election outcome, the broad macroeconomic factors should continue to remain stable and could support softening in domestic yields going forward.

The Fund Managers continue to have a positive outlook for interest rates, based on various favorable factors: (a) Record RBI dividend to the Government, (b) reduced Fiscal deficit number of 5.6%, (c) favorable G-Sec supply demand dynamics, (d) FPI index related inflows, (e) revised outlook in India by S&P, (f) soft core inflation along with expectations of a better than normal monsoon, and finally (g) soft signals by Government and RBI on liquidity.

Independent Auditors' Report

To the Board of Directors of HSBC Trustees (India) Private Limited (the "Trustee")

HSBC NIFTY 50 INDEX FUND

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **HSBC NIFTY 50 INDEX FUND** (the "Scheme") of HSBC Mutual Fund (the "Fund"), which comprise the Balance Sheet as at March 31, 2024, the Revenue Account and the Cash Flow Statement for the year then ended, and notes to the financial statements, including a summary of material accounting policy and other explanatory information.

In our opinion, and to the best of our information and according to the explanations given to us, the aforesaid financial statements of the Scheme give a true and fair view in conformity with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Companies Act, 2013 (the "Act") read with Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India, including the accounting policies and standards specified in the Regulation 50 and Ninth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 ("the SEBI Regulations") (collectively referred to as the "Regulations") as amended:

- a. in the case of the Balance Sheet, of the state of affairs of the Scheme as at March 31, 2024;
- b. in the case of the Revenue Account, of the net surplus for the year ended on that date; and
- c. in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SAs") and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India (the "ICAI"). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Scheme in accordance with the Code of Ethics issued by the ICAI together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Board of Directors of HSBC Asset Management (India) Private Limited (the "AMC") and the Board of Directors of HSBC Trustees (India) Private Limited (the "Trustees") (collectively referred to as "the Management") are responsible for the other information. The other information comprises the information included in the Trustees report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Management is responsible for the preparation of these financial statements that give a true and fair view of the state of affairs, results of operations and cash flows of the Scheme in accordance with the accounting principles generally accepted in India, including the accounting policies and standards specified in Regulations.

Independent Auditors' Report (Contd...)

This responsibility also includes maintenance of adequate accounting records in accordance with the SEBI Regulations for safeguarding of the assets of the Scheme and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management is responsible for assessing the Scheme's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management, either intends to liquidate the Scheme or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance are also responsible for overseeing the Scheme's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Independent Auditors' Report (Contd...)

Report on Other Legal and Regulatory Requirements

1. As required by regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:
 - a. we have sought and obtained all the information and explanations which, to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. in our opinion, the Balance Sheet and the Revenue Account dealt with by this report have been prepared in accordance with the accounting policies and standards specified in the Regulations; and
 - c. the Balance Sheet, the Revenue Account and the Cash Flow Statement, dealt with by this report are in agreement with the books of accounts of the Scheme.
2. On the basis of information and explanations given to us, the scheme does not have any non-traded securities as at March 31, 2024 and hence reporting requirement of Eighth Schedule of the SEBI Regulations is not applicable.
