Investors often strive to strike a balance between the risk associated with their investments and proportionate returns. It is a known fact that equities, over a longer period of time, prove to be unwavering wealth creators. However, despite long-term growth opportunities, investors take caution while investing in equities, due to the intermittent risk. A solution to this could be a portfolio mix of equities, debt and arbitrage opportunities that could help achieve the desired risk-return profile, along with tax efficiency.

Exit Load: If the units redeemed or switched out are upto 10% of the units purchased or switched in ("the limit") within 1 Month from the date of allotment – Nil, If units redeemed or switched out are over and above the limit i.e beyond 10% of the allotted units within 1 Month from the date of allotment – 0.05%, If units are redeemed or switched out on or after 1 Month from the date of allotment. – Nil. Fund Approach

- The fund aims to generate regular income by predominantly investing in arbitrage opportunities in the cash and derivatives segments of the equity markets and debt and money market instruments and to generate long-term capital appreciation through unhedged exposure to equity and equity related instruments.
- The arbitrage components in the portfolio of these schemes try to minimise the downside risk
- The fund manager can decide asset allocation between equity and debt depending on prevailing market and economic conditions as per indicative allocation given in the Scheme Information Document.

Why HSBC Equity Savings Fund?

- Investment predominantly in arbitrage opportunities in the cash and derivatives segments of the equity markets; and debt and money market instruments
- Aim to provide reasonable liquidity and risk adjusted performance in long term to suit the investor's requirements
- Maintains optimum allocation across arbitrage instruments

Investment Objective

The investment objective of the Scheme is to generate regular income by predominantly investing in arbitrage opportunities in the cash and derivatives segments of the equity markets and debt and money market instruments and to generate long-term capital appreciation through unhedged exposure to equity and equity related instruments. There is no assurance that the objective of the Scheme will be realised and the Scheme does not assure or guarantee any returns.
