

A fund with a range of shots.

HSBC Multi Asset Allocation Fund

(An open ended scheme investing in Equity & Equity Related instruments, Debt & Money Market Securities and Gold / Silver ETFs)

To face all market deliveries.

June 2024

A seasoned player has an arsenal of shots ready to be used as per pitch conditions and delivery. Similarly, every portfolio needs different asset classes that can combine to provide return potential while adjusting risk. Choose a fund that invests in equity for growth potential while debt and Gold / Silver can help to balance risks in volatile market conditions.

History of asset classes through some major events

- ◆ Equity markets have delivered strong performance during positive market situations but also corrected sharply during major events such as Sub-prime, Chinese slowdown and Corona virus led global lockdown
- ◆ During such events, asset classes such as Gold or Debt or Silver may compensate for negative equity performance

Best asset class may change often

Equity represented by NIFTY 50 TRI, Debt by NIFTY Short Duration Debt Index, and Price of Gold (per 10 gram), Prices of Silver, Nifty50 value.

Multi Asset Allocation scenarios show reasonable risk adjusted performance

Allrounder that grows through Ups and Downs

Introducing - HSBC Multi Asset Allocation Fund

While equity investments can be risky in the short term, they can drive long-term wealth creation.

Some debt instruments have potential to lower volatility and generate steady income.

Gold / Silver can help compensate volatility when situation arises and support growth over a long term. In case of extreme events, Arbitrage can also help reduce volatility.

With an efficient asset allocation HMAAF aims to spread the risk, optimise performance and reduce risk to deliver risk adjusted growth in long run.

Multi Asset Allocation scenarios show reasonable risk adjusted performance

Source - HSBC Mutual Fund, For illustration purpose only.

Investment Strategy - HSBC Multi Asset Allocation Fund

Equity - 65% (minimum) to 80% allocation

- Actively managed portfolio of companies across market caps
- Typical equity allocation may range between 65% to 80%
- Asset re-allocation could be undertaken basis changes in a market / asset class outlook of the Fund House
- Approach: Blended -

Top down + Bottom up
- Style: Blended :
Growth and Value

Debt - 10% (minimum) to 25%

- Typical Debt allocation is likely to be around 10% to 25%
- Aims to invest in high quality assets including GOI securities, Corporate bonds, Money market instruments to generate alpha with active duration management
- Aims to build a liquid portfolio to enable positioning changes based on evolving scenario
- Focus on the short to medium end of the curve

Gold / Silver ETFs - 10% (minimum) to 25%

- Gold/Silver allocation is expected to be around 10% to 25%
- Aim to compensate volatility when situation arises and support growth over a long term through Gold / Silver
- Focus on the short to medium end of the curve

Arbitrage

- In certain market situations or if market outlook is negative, Equity portion can be used for arbitrage with an aim to lower a downside impact
- In case of extreme events Arbitrage can help reduce volatility and improve overall performance

The fund aims to capitalise on an optimum Multi Asset Allocation investment strategy
