⁷ Continuing plans

Data as on 31 Dec 2022

Why HSBC Large and Mid Cap Fund?

- To achieve relatively lower volatility and performance consistency with optimal allocation to large caps
- To increase the possibility of alpha generation and accelerated growth with potential of mid caps
- A top down and bottom up approach will be used to invest in equity and equity related instruments
- True to label fund – The fund will stay true to its objective in keeping with the mandate reposed by the investor whilst investing in the fund
- To create a corpus through generating inflation-adjusted returns to cater to long-term goals

Fund Philosophy

- Prefer dominant and scalable businesses available at reasonable valuations.
- Profit pool consolidation with dominant players to continue and disruption to accelerate this shift.
- Stock selection focuses on earnings growth trajectory and within that, the emphasis lies on earnings surprises.
- We would be looking to be in large caps where scale will be an advantage (like banks), while midcaps will be sector leaders or niche players in their respective business. For example, specialty chemicals, tiles etc. In some cases, like real estate (which is a regional market share consolidation play), we have a mix of large and mid-cap players.

Investment Objective

To seek long term capital growth through investments in both large cap and mid cap stocks. However, there is no assurance that the investment objective of the Scheme will be achieved.
