Large Cap Fund	Neelotpal Sahai and Gautam Bhupal	Nifty 100 TRI	10 Dec 2002	Rs. 1759.39 Cr

Why HSBC Large Cap Fund?

- To seek an exposure to true large cap companies
- A top down and bottom up approach will be used to invest in equity and equity related instruments
- True to label fund – The fund will stay true to its objective in keeping with the mandate reposed by the investor whilst investing in the fund
- Aim to create a corpus through generating inflation-adjusted returns to cater to long-term goals

Fund approach

- Prefer dominant and scalable businesses available at reasonable valuations.
- Profit pool consolidation with dominant players to continue and disruption to accelerate this shift.
- Stock selection focuses on earnings growth trajectory and within that, the emphasis lies on earnings surprises.
- Since valuations are in line with its historical averages, earnings visibility and relative earnings growth are the key criteria of stock selection.

Investment Objective

- To generate long-term capital growth from an actively managed portfolio of equity and equity related securities of predominantly large cap companies. However, there can be no assurance or guarantee that the investment objective of the scheme would be achieved.

- A top down and bottom-up approach will be used to invest in equity and equity related instruments
- True to label fund – The fund will stay true to its objective in keeping with the mandate reposed by the investor whilst investing in the fund
- Aim to create a corpus through generating inflation-adjusted returns to help cater to long-term goals

Fund approach

- Prefer dominant and scalable businesses available at reasonable valuations
- Profit pool consolidation with dominant players to continue and disruption to accelerate this shift
- Stock selection focuses on earnings growth trajectory and within that, the emphasis lies on earnings surprises
- We would be looking to be in large caps where scale will be an advantage (like banks), while midcaps will be sector leaders or niche players in their respective business.
- For example, specialty chemicals, tiles etc. In some cases, like real estate (which is a regional market share consolidation play), we have a mix of large and mid-cap players

Investment Objective

- To seek long term capital growth through investments in both large cap and mid cap stocks. However, there is no assurance that the investment objective of the Scheme will be achieved.

HSBC Multi Cap Fund (HMCF)

An open ended equity scheme investing across large cap, mid cap, small cap stocks

Fund snapshot

Fund Category	Fund Manager	Benchmark ¹	Inception Date	AUM ^{&}
Multi Cap Fund	Venugopal Manghat, Gautam Bhupal, Kapil Punjabi and Sonal Gupta [#]	NIFTY 500 Multicap 50:25:25 TRI	30 Jan 2023	Rs. 2669.86 Cr

Why HSBC Multi Cap Fund?

- The fund invest across Large, Mid and Small Caps
- Aim to focus on smaller size businesses in their early stage of development that have potential for growth in the long run
- Focus on growth potential in revenue and profit opportunities as compared to broader market
- Follows bottom-up stock selection using proprietary investment approach
- Aims to invest in undervalued, under-owned, and under researched segments that may deliver growth in long run
- Valuation is the most important key focus while investing in stocks

Fund approach

- Bottom-up stock picking is rewarding across cycles
- Various phases of the economic cycle throw up diverse stock picking opportunities
- In a growing economy, some companies exhibit better growth and earnings visibility irrespective of the business cycle
- Business cycles and macros driving them can be directional indicators but ultimately stock selection will lead to returns
- Strong franchises thrive in bad macros
- Bad macro-economic conditions are a blessing for good franchises
- For e.g rising cost of inputs forces weaker players in an industry to close capacity. This helps stronger / organized players to gain market share and dominate the industry
- Consumer staples companies do well generally in a high inflation environment. Similarly, rising crude prices have helped Paint companies even as their input prices have risen multifold

Investment Objective

- The investment objective of the fund is to generate long-term capital growth from an actively manage portfolio of equity and equity related securities across market capitalization. However, there can be no assurance or guarantee that the investment objective of the scheme would be achieved

Value	Venugopal Manghat, Gautam Bhupal and Sonal Gupta [#]	Nifty 500 TRI	8 Jan 2010	Rs. 11430.68 Cr

Why HSBC Value Fund?

- To seek an exposure to value style companies
- Aim to identify undervalued stocks having the potential to deliver long term risk-adjusted returns
- Undervalued stocks would include stocks which the Fund Managers believe are trading at less than their assessed values
- Long term capital appreciation
- Aim to create a corpus through generating inflation-adjusted returns to help cater to long-term goals

Fund approach

- Diversified equity fund with strong value bias that aims to deliver long term reasonable risk adjusted returns
- Focus on identifying valuation anomalies versus the economic potential of the business over the medium term
- Aims to minimize portfolio risk by investing in quality companies, monitoring corporate fundamentals closely
- The fund looks to invest in fundamentally strong companies that the fund manager believes are trading at less than their assessed values thus offering higher upside potential
- This approach not only helps in identifying undervalued stocks but also factor-in the risk elements while picking stocks

Investment Objective

- The investment objective of the Scheme is to generate long-term capital appreciation from a diversified portfolio of predominantly equity and equity related securities, in the Indian markets with higher focus on undervalued securities. The Scheme could also additionally invest in Foreign Securities in international markets.

Equity Linked Savings Scheme	Abhishek Gupta , Gautam Bhupal and Sonal Gupta [#]	NIFTY 500 TRI	27 Feb 2006	Rs. 3673.94 Cr

Why HSBC ELSS Tax Saver Fund?

- To save taxes under Section 80C of Income Tax Act*
- The investment approach is bottom-up stock picking. The Scheme seeks to add the opportunities that the market presents, without any sector/cap bias
- Bottom-up stock picking: The Scheme focuses on bottom-up stock picking (i.e. focusing solely on prospects of individual stocks) as opposed to a top-down approach (i.e. predicting macro-economic and political trends, themes/sectors and taking investment decisions based on them)
- No cap bias: It will seek to identify the best stocks at a point in time, regardless of any market cap bias.
- To create a corpus through generating inflation-adjusted returns aim to cater to long-term goals

Fund approach

- The fund aims for bottom-up investment approach for stocks' and companies' selection for a well-diversified quality portfolio
- The 3 year lock-in helps the fund manager take positions in stocks with longer term potential
- The scheme focuses on delivering risk-adjusted performance over the long term coupled with tax saving under section 80C makes it an investment option for long term investors
- The fund has a proven long-term track record across various time periods / market cycles
- The fund with its flexible investment approach of investing across the market spectrum, has stood the test of time and has a proven track record of over 10 years

Investment Objective

- The investment objective of the Scheme is to generate long-term capital growth from a diversified portfolio of predominantly equity and equity-related securities. There is no assurance that the objective of the Scheme will be realised and the Scheme does not assure or guarantee any returns. For defensive considerations and/or managing liquidity, the Scheme may also invest in money market instruments.

Why HSBC Balanced Advantage Fund?

- Asset allocation between equity and debt depending on prevailing market and economic conditions
- Aims to build a portfolio of companies diversified across major industries, economic sectors and market capitalization that offer an acceptable risk reward balance
- Investment in debt securities will be guided by credit quality, liquidity, interest rates and their outlook
- To grab opportunity from both asset classes of equity and fixed income for an optimal asset-allocation portfolio
- Aim to create a corpus through generating inflation-adjusted returns to cater to long-term goals

Fund approach

- The fund may help investors participate in the long term growth potential of equities but with a much lower short term volatility
- The Fund helps in systematically managing equity allocation based on valuations and keep emotions away from asset allocation decisions
- History suggests that sharp corrections in the market typically occur when equity valuations are expensive. Due to the fund's strategy of maintaining low equity allocation at higher valuation levels, it may help reduce downside significantly during such market corrections
- Potential to improve risk adjusted return for medium to long term investors; active stock picking approach for equity allocation
- The Fund provides a tax efficient and cost efficient dynamic asset allocation solution – taxation similar to equity oriented schemes

Investment Objective

- To seek long term capital growth and income through investments in equity and equity related securities and fixed income instruments. There is no assurance that the objective of the Scheme will be realised and the Scheme does not assure or guarantee any returns.

Why HSBC Tax Saver Equity Fund?

- To save taxes under Section 80C of Income Tax Act*
- The investment approach is bottom-up stock picking. The Scheme seeks to add the opportunities that the market presents, without any sector/cap bias
- No cap bias: It will seek to identify the best stocks at a point in time, regardless of any market cap bias.
- To create a corpus through generating inflation-adjusted returns aim to cater to long-term goals

Fund approach

- The fund aims for bottom-up investment approach for stocks' and companies' selection for a well-diversified quality portfolio
- The 3 year lock-in helps the fund manager take positions in stocks with longer term potential
- The scheme focuses on delivering risk-adjusted performance over the long term coupled with tax saving under section 80C makes it an investment option for long term investors

Investment Objective

- To provide long term capital appreciation by investing in a diversified portfolio of equity & equity related instruments of companies across various sectors and industries, with no capitalisation bias. The Fund may also invest in fixed income securities. However, there can be no assurance or guarantee that the investment objective of the scheme would be achieved.
