[#] Mayank Chaturvedi shall be the fund manager for investments in foreign securities (wherever applicable) for all the schemes of HSBC Mutual Fund. w.e.f. October 01, 2025.

Most of us have a tendency to wait until the last moment in the financial year to start making tax saving investments, and more often than not, we end up making the wrong decisions. The key here is to begin investing at the start of the financial year and change the notion of “tax saving” into “tax planning”. This involves creating a strategy to help you maximise your tax savings together with wealth creation.

Why HSBC ELSS Tax saver Fund?

- To save taxes under Section 80C of Income Tax Act*
- The scheme focuses on delivering risk-adjusted performance over the long term coupled with tax saving under section 80C makes it an investment option for long term investors
- The fund has a proven long-term track record across various time periods / market cycles
- To create a corpus through generating inflation-adjusted returns aim to cater to long-term goals

Fund Approach

- The Scheme seeks to add the opportunities that the market presents, without any sector/cap bias
- No cap bias: It will seek to identify the best stocks at a point in time, regardless of any market cap bias.
- The fund focuses on bottom-up stock picking (i.e. focusing solely on prospects of individual stocks) as opposed to a top-down approach (i.e. predicting macro-economic and political trends, themes/sectors and taking investment decisions based on them)
- The 3 year lock-in helps the fund manager take positions in stocks with longer term potential
- The fund with its flexible investment approach of investing across the market spectrum, has stood the test of time and has a proven track record of over 10 years

Investment Objective

The investment objective of the Scheme is to generate long-term capital growth from a diversified portfolio of predominantly equity and equity-related securities. There is no assurance that the objective of the Scheme will be realised and the Scheme does not assure or guarantee any returns. For defensive considerations and/or managing liquidity, the Scheme may also invest in money market instruments.
