Dear Investor,

FY2024–25 was a defining year – one that reflected the maturing confidence of Indian investors and the evolving depth of our mutual fund industry. With shifting global dynamics, resilient domestic consumption and a strong digital push, this year reinforced the importance of disciplined investing and long-term financial planning. Against this backdrop, our company has stayed focused on its core purpose: to enable investors to make informed choices and grow their wealth through trusted, well-managed investment solutions.

India's MF story accelerates

The Indian mutual fund industry recorded its strongest growth yet in financial year 2024-25, with assets under management (AUM) surging 23.11% to an all-time high of Rs 65.74 lakh crore as of March 2025.

Retail investor participation soared in FY25, with the number of mutual fund folios rising 32% year-on-year to 23.45 crore. Systematic investment plans (SIPs) played a central role in driving investor engagement. Annual SIP contributions jumped 45.24% to Rs 2.89 lakh crore.

Overall, the mutual fund industry's performance in FY25 underscores its strength and long-term potential highlighting the sustained participation of retail investors and the shift towards long-term financial behaviour.

Indian markets: Resilience amid global uncertainty

In FY2024-25, Indian markets continued to shine as a beacon of resilience amid ongoing global economic uncertainties. Key benchmark indices scaled fresh highs during the year, underscoring investor confidence in India's macroeconomic stability and long-term growth potential. India remained a preferred destination for both domestic and foreign investors. Structural reforms, government-led production incentives and strategic trade policies have further opened up diverse investment opportunities across sectors such as manufacturing, infrastructure and digital technology.

The mutual fund industry also registered robust growth buoyed by a sustained equity rally and rising investor awareness. A notable trend was the increasing participation from younger investors—millennials and Gen Zs—who continued to adopt mutual funds as a key investment vehicle to combat inflation and build long-term wealth. Despite intermittent market volatility, this shift towards disciplined investing signals a maturing investor base that is looking beyond short-term returns and embracing goal-based financial planning.

Key achievements in FY2024-2025

Investment Performance: Our disciplined strategy and strong research capabilities helped grow our AUM and led couple of our funds to key milestones. Supported by experienced fund managers and well embedded investment philosophy, our funds delivered robust performance across categories. Our proprietary framework ensures we stay focused on helping investors achieve their goals.

Product Innovation: In FY25, we launched two new funds – HSBC Financial Services Fund and HSBC India Export Opportunities Fund, tailored to meet the evolving needs of our investors. These new offerings have been well-received, contributing to our growth in AUM significantly.

Increased Media Presence: In FY25, we significantly enhanced our media presence, ensuring that our brand and thought leadership were visible across a wide range of platforms. Through strategic media engagements with different publications, we strengthened our visibility. Additionally, our participation in various talk shows, authored articles and interviews helped amplify our message, broaden our audience reach and reinforce our market position.

Successful Campaign Launch: Building on the momentum of last year's successful campaign *SIP Hai #FaydeWaliAadat*, we continued our focus on investor education through multiple impactful initiatives. We unveiled *Apne #SIPKoDoPromotion*, a one of its kind digital campaign to educate investors on SIP Top-up.

We also rolled out thematic campaigns such as 'Women and Investing', aimed at encouraging financial independence among women; sports-led campaigns like 'Cricket & Investing', which helped simplify investment concepts through relatable analogies; and 'ELSS Sahi Hai', an awareness drive around the benefits of ELSS for tax-saving and long-term wealth creation. Each of these initiatives was designed to engage diverse investor segments while reinforcing our commitment to making investing accessible, informed and goal-oriented.

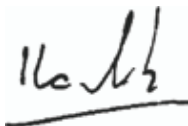

Client Relationships: We have strengthened our client relationships through enhanced communication, transparency and personalized service. Our client satisfaction scores and Net Promoter Score (NPS) have increased over the past year, reflecting our ongoing commitment to exceptional service.

Conclusion

From my perspective, the past year has once again underscored the critical role of asset allocation and disciplined investing specially in uncertain times. As global uncertainties continue to unfold and drive market volatility, maintaining right asset allocation becomes even more essential. It enables investors to manage risk effectively, stay resilient through market cycles and remain aligned with their financial goals.

At HSBC Mutual Fund, our endeavor is to help investors stay the course guided by a long term and balanced approach. Looking ahead, we remain committed to empowering our investors through research driven strategies, timely insights and educational resources. Stay connected with us through our digital platforms and continue engaging with our growing community of informed investors. We at HSBC Mutual Fund, always believe that it is your dreams we care for by nurturing your investments. Thank you for the trust you have bestowed upon us.

Warm regards,

Kailash Kulkarni

Chief Executive Officer

I. SCHEME PERFORMANCE, MARKET OUTLOOK, AND OPERATIONS OF THE SCHEMES

a. Operations and Performance of the Schemes

HSBC Financial Services Fund (HFSF)

(Sector based Fund - An open-ended equity scheme investing in financial services sector)

The investment objective of the scheme is to generate long-term capital appreciation from a portfolio that is invested predominantly in equity and equity related securities of companies engaged in financial services businesses. There is no assurance that the investment objective of the scheme will be achieved.

HFSF was launched during the year on February 06, 2025, and portfolio construction began from March 05, 2025. The net assets of HFSF amounted to INR 539.54 crores as at March 31, 2025. Around 80.76% of the net assets were invested in equities, 19.48% of the net assets were invested in reverse repos/TREPS and (0.24) % in net current assets as at March 31, 2025.

The fund managers believe over the medium to long-term non-lending financials, viz Asset management companies, Capital markets, Exchanges, General insurance, Health insurance, Depositories etc., should do well in line with the broader financialization of savings. As on March 31, 2025, HFSF was in the process of deploying the proceeds with nearly 20% remaining to be deployed and held as cash. Almost 50% of the fund proceeds was deployed in large caps and around 30% deployed in Mid and Small caps.

Performance data of the scheme has not been provided for the schemes which have not completed one year as on March 31, 2025, since inception.

II. MARKET OVERVIEW & OUTLOOK (AS FURNISHED BY HSBC ASSET MANAGEMENT (INDIA) PRIVATE LIMITED)

➤ EQUITY OUTLOOK

Recap of FY 2024-25:

After a stellar FY24, FY25 was a much more tumultuous year for the equity market. It can clearly be described as a tale of two halves, where the market despite the election hiccup rose steadily in the first half till September 2024. However, the markets suffered a significant correction in the second half on the back of heavy FII selling, significant capital raising activity, growth slowdown concerns in India and rising geopolitical concerns on account of potential US tariffs under the new administration. Driven by the sharp correction since October 2024, Sensex/Nifty returned a modest 5% return during FY25. The broader market represented by NSE Midcap and BSE Small cap Index closed FY 25 with an 8% gain.

While geo-political conflicts continued in FY25, their impact on crude and global supply chains moderated. Crude price corrected in the first half of the year. Inflation saw some upward pressure during the middle of the year due to high food inflation, which led RBI to resist cutting rates till the last quarter. The economy saw some slowdown in growth momentum impacted also by the slowdown in government spending pre and post elections. However, growth has started to recover in H2FY25, with better agriculture growth and a pickup in investments. Consumer demand trends have been mix with softer urban demand offset to some extent by better rural demand.

Sectoral trend in terms of returns were quite divergent. Healthcare was the best performing sector during the year followed by Banks both delivering double digit returns. Metals also outperformed the Nifty. IT, FMCG and Capgoods were also positive for the year but underperformed the Nifty. However, Power and Autos delivered minor negative returns while Realty was the worst performing sector for the year.

MSCI India Index underperformed most global indices during the past fiscal. MSCI India index (USD) gained 1.6% as compared to 5.6% gain for MSCI World, 6.8% for US S&P 500, 4.1% for MSCI Europe and 5.6% for MSCI Emerging Markets as MSCI China rose a whopping 36.4% over the period.

During FY25, DII's invested US\$71.6bn with MFs investing US\$55bn (vis-à-vis US\$24bn in FY24) while Insurance also contributed US\$16.6bn (vis-à-vis only US\$1bn in FY24), while FII's withdrew US\$15.6bn from the Indian market versus an inflow of US\$25bn in FY24. Growth concerns and high valuations in India and expectations of strong improvement in China drove the outflow. This was followed by further outflow due to geo-political and tariff concerns later in the year.

Way Forward:

In our view, global macro environment remains challenging with heightened geo-political and economic uncertainties. Announcement of reciprocal tariffs by the US administration could significantly impact US and global growth outlook, if the tariffs stay in place. For India, GDP growth has further accelerated to 7.4%yoy in Q4FY25. We believe government has tried to partly address the slowdown in private consumption through the income tax rate cuts in the Union Budget. While government capex is moderating, private capex may take time to recover given global uncertainties. RBI is now trying to ease policy rates and liquidity conditions rapidly. With USD weakening and decline in crude prices the room for easing has increased further. Most economists now expect another 50bps of rate cut from the RBI during the calendar year. Forecast of an above normal monsoon is also a positive for rural demand.

We believe growth cycle in India may be bottoming out. Interest rate and liquidity cycle, decline in crude prices and normal monsoon are all supportive of a pick-up in growth going forward. Although, global trade related uncertainty remains a headwind to private capex in the near term, we expect India's investment cycle to be on a medium-term uptrend supported by government investment in infrastructure and manufacturing, pickup in private investments and a recovery in real estate cycle. We expect higher private investments in renewable energy and related supply chain, localization of higher-end technology components, and India becoming a more meaningful part of global supply chains to support faster growth. Post the recent correction, Nifty valuations are now in-line with its 5/10-year average. We remain constructive on Indian equities supported by the more robust medium term growth outlook.

➤ DEBT OUTLOOK

Year 2024 by all accounts has been a tough one, especially for global macro analysts and traders. Through all this volatility, India's CY24 scorecard shines out compared to the performance of most EMs, with equity markets up YTD by ~13%, INR weaker by just ~1.9% and amongst the top 5 EM performers, 10-year bond yields down ~45 bps and FX reserves still up a net USD ~35 bn.

In RBI, We Trust

A large part of the credit should go to RBI which has manned our gates in a credible, clairvoyant and decisive manner. This is best underscored by RBI's series of actions in the financial sector, where pre-emptive stern actions have probably helped deliver a soft landing of the personal and microfinance credit boom, before it potentially spiraled into another financial sector crisis as we have often seen in the past.

The reason we are starting our 2025 outlook with an ode to the RBI for its prudent management of CY24, is that given the kind of uncertainties and issues that the world is facing now, we need as much and more of RBI's steady hand, of course in tandem with the government policy makers, to ensure that India continues to carry the mantle of being a "beacon of stability" in an otherwise tumultuous world. And for that - In RBI, We Trust. With Governor Shaktikanta Das' term having ended after a memorable 6-year period, Shri Sanjay

Trustees' Report

Malhotra (erstwhile Revenue Secretary) now takes charge of the institution with the responsibility of ensuring this trust not only continues, but also grows stronger.

Starting CY25 with a positive outlook

Our macro scorecard for CY25 reflects a positive rate bias for the Indian bond markets as depicted below:

Over the past few months, the bands of uncertainty have widened around some factors suggesting that navigating the bond markets in 2025 may be a bit more challenging than in 2024.

Taking a deeper dive into 3 factors where there has been visibility and more certainty of the path ahead:

- **Fiscal policy and G-Sec demand-supply:** Both these factors continue to be strong tailwinds into 2025, similar to 2024. Strong domestic demand along with continued FPI inflows, and potential OMO purchases by RBI will keep Government securities well bid and market technical positive.
- **Index and strategic FPI flows:** India bond markets are now in the process of inclusion into all 3 relevant EM bond indices viz. JP Morgan GBI-EM, Bloomberg EM LC index and FTSE-EM Government Bond Index. Total index flows should total USD 35-40 bn by March 2026.
- **External balances:** India's Current Account deficit has been steady, hovering around the ~1% mark for the past few years and we expect the same to continue into FY26 as well. Capital flows by their very nature are and will remain fickle. However, given the steady trickle of bond inflows, recent RBI tweaks with regards to FCNR deposit inflows and a still strong macro story, we believe Balance of Payments should still remain comfortable.

Moving onto the 3 factors where visibility has become clouded and may need to be watched closely:

- **Global interest rate and FX environment:** Given the lack of clarity on Trump 2.0 policies and their impact, US monetary policy backdrop is likely to be more uncertain in 2025. We prefer to start with a neutral stance on its impact on India bond yields. Consensus view on FX seems to be USD strength and EM weakness. The wildcard of course is any potential CNY depreciation/devaluation as a counter to Trump tariffs, which could lead to severe ripples across EM currencies. Clearly Central Bank actions will be critical for rates assessments as well.

If consensus view of USD strength does indeed turn out to be the way forward for 2025, we would expect INR weakness of 1-3% over CY25, still outperforming majority of EM currencies.
- **Systemic liquidity:** Recent FPI selling frenzy has forced liquidity back into deficit, on back of RBI interventions to maintain INR stability, forcing RBI to cut CRR in its December policy. We expect RBI to continue with further measures in this direction viz. aggressive VRR injections, FX swaps as well as potential Open Market Operations (OMO) to buy Government securities and inject liquidity into the system.
- **Growth inflation imbalance:** This brings us to the final and most relevant point. Growth outlook has suddenly dampened after the Q2 print of 5.4%, while inflation risks remain elevated on the back of unrelenting food price shocks. We expect the balance to get better over next few months as inflation retraces back to sub 5% levels, which would free up RBI's ability to respond better to downside growth risks.

Trustees' Report

For the year ended March 31, 2025 (Contd...)

And this is what underpins our positive outlook for bond markets, as we expect the MPC to be able to cut rates by 50bps over the February and April policies. Through all the uncertainty, we still think space would exist for a further cut by June 2025, taking policy repo rate to 5.75% and overnight rates towards 5.5%. However, we remain mindful of the risk that global developments may not leave the RBI space to move that last mile.

To sum up, despite the various uncertainties and imponderables heading into 2025, we remain positive on our outlook on Indian bond markets and expect interest rates to move lower, **supporting our long duration bias across portfolios**, with the intent to remain nimble in our strategies as the year progresses.

Factors impacting the yield curve: The chart shows the impact we expect on different parts of the yield curve based on key factors and help investors arrive at an appropriate risk return profile of their portfolios

In conclusion, the coming year is bound to be eventful and exciting from an investment perspective, with a fine line between being “nimble footed” and “holding the line”. In such an uncertain backdrop, India is fortunate to have a strong macro-economic fortress and more importantly, a resolute RBI at the gates, to raise the guard as and when required. As we head into 2025, for India bond and currency investors, that is probably the biggest reassurance of calm amidst the chaos. We believe, Indian bond markets are well-armed to navigate through the challenges posed by 2025.

Independent Auditors' Report

To the Trustees of HSBC Mutual Fund – HSBC Financial Services Fund

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **HSBC Financial Services Fund** ("the Scheme"), which comprise the Balance Sheet as at March 31, 2025, the Revenue Account, the Statements of changes in net assets attributable to unit holders of scheme, the Statement of Cash Flows for the period then ended and notes to the financial statements, including material accounting policy information and other explanatory information (hereinafter referred to as the "financial statements").

In our opinion, and to the best of our information and according to the explanations given to us, the aforesaid financial statements of the Scheme give a true and fair view in conformity with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Companies Act, 2013 (the "Act") read with Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India, including the accounting policies and standards specified in the Regulation 50 and Ninth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 ("the SEBI Regulations") as amended:

- a. in the case of the Balance Sheet, of the state of affairs of the Scheme as at March 31, 2025;
- b. in the case of the Revenue Account, of the net surplus for the period ended on that date; and
- c. in the case of the Statement of Cash Flows, of the cash flows for the period ended on that date; and
- d. in the case of the Statements of changes in net assets attributable to unit holders, of the changes in net assets attributable to unit holders of the Scheme for the period ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accounts of India (the "ICAI"). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Scheme in accordance with the Code of Ethics issued by the ICAI together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion.

Information other than the Financial Statements and Auditor's Report thereon

The Board of Directors of HSBC Asset Management (India) Private Limited (the "AMC") and the Board of Directors of Board of Directors of HSBC Trustees (India) Private Limited (the "Trustee") (collectively referred to as the "Management") are responsible for the other information. The other information comprises the information included in the Trustees report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditors' Report (Contd...)

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Management is responsible for the preparation of these financial statements that give a true and fair view of the state of affairs, results of operations, cash flows and changes in net assets attributable to unit holders of the Scheme in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the SEBI Regulations for safeguarding of the assets of the Scheme and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management are responsible for assessing the Scheme's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management, either intends to liquidate the Scheme or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance are also responsible for overseeing the Scheme's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Independent Auditors' Report (Contd...)

We communicate with those charged with governance, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:
 - a. we have sought and obtained all the information and explanations which, to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. in our opinion, the Balance Sheet and the Revenue Account dealt with by this report have been prepared in accordance with the accounting policies and standards specified in the Regulations; and
 - c. the Balance Sheet, the Revenue Account, the Statement of changes in net asset attributable to unit holders of scheme and the Statement of Cash Flow, dealt with by this report are in agreement with the books of accounts of the Scheme.
2. On the basis of information and explanations given to us, the scheme does not have any non-traded securities as at March 31, 2025 and hence reporting requirement of Eighth Schedule of the SEBI Regulations is not applicable.
