Why HSBC Large Cap Fund?

- To seek an exposure to true large cap companies which are relatively stable than mid and small cap companies
- A top down and bottom up approach will be used to invest in equity and equity related instruments
- Profit pool consolidation with dominant players to continue and disruption to accelerate this shift.

Fund Approach

- Prefer dominant and scalable businesses available at reasonable valuations
- Stock selection focuses on earnings growth trajectory and within that, the emphasis lies on earnings surprises.
- Earnings visibility and relative earnings growth are the key criteria of stock selection

Key Portfolio themes:

- An high conviction portfolio positioned for stocks with earnings visibility in the near term and growth in medium to long term
- Portfolio construction is through bottom-up stock selection and there is an emphasis on sustainable earnings growth, relative earnings and earnings surprises
- Consensus earnings estimates look optimistic

Investment Objective

To generate long-term capital growth from an actively managed portfolio of equity and equity related securities of predominantly large cap companies. However, there can be no assurance or guarantee that the investment objective of the scheme would be achieved.
