Investment process and team

Our investment process is active, fundamental and value driven. It combines qualitative top-down analysis of macroeconomic and market dynamics, with structured bottom-up research into individual bond issuers and fixed income securities. While investment decisions are taken locally to ensure focus and accountability, our portfolio managers in India are able to access the expertise and experience of our investment professionals worldwide in order to gain a truly global perspective.

The Fund is managed in India by Kapil Punjabi, who has over 15 years of investment experience. The team in India benefits from the broader HSBC Asset Management Liquidity team which manages money market assets across multiple currencies globally.

Notes:

* The rating mentioned above refers to the local credit rating in India. The rating criteria and methodology used by Indian local rating agencies may be different from those adopted by most of the established international credit rating agencies. Therefore, the Indian local credit rating system may not provide an equivalent standard for comparison with securities rated by international credit rating agencies.

Past performance may or may not be sustained in the future. Refer note below.

The Performance of HSBC Global Equity Climate Change Fund of Fund (managed by Priyankar Sarkar and Kapil Punjabi) is not given since the scheme has not completed 6 Months from the date of inception.

Pursuant to the circular issued by SEBI on 'Categorization and Rationalization of the Schemes, there has been change in the fundamental attribute(s) of the aforesaid scheme(s) effective Mar 14, 2018.

*Additional benchmark as per SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021

¹ Pursuant to SEBI circular dated Sept 13, 2012, certain Plans / Options within the schemes have been discontinued to comply with a single plan structure. Since there was no continuous NAV history available for the surviving Plan prior to 19 May 2011, returns since the said date have been considered for calculating performance. The inception date of HSBC Cash Fund however is 4 December 2002.

² Pursuant to SEBI circular dated Sept 13, 2012, certain Plans / Options within the schemes have been discontinued to comply with a single plan structure. Since there was no continuous NAV history available for the surviving Plan prior to 1 October 2012, returns since the said date have been considered for calculating performance. The inception date of HSBC Low Duration Fund however is 17 October 2006.

The performance details provided herein are of other than Direct Plan - Growth Option. Returns on Rs 10,000 are point-to-point returns for the specific time period, invested at the start of the period. The returns for the respective periods are provided as on last available NAV of June 2021 for the respective Schemes. Returns 1 year and Above are Compounded Annualised. Load is not taken into consideration for computation of performance. Different plans shall have a different expense structure. The expenses of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses / commission charged to the Other than Direct Plan. The performance data of the scheme(s) managed by the respective Fund Manager which has/have not completed 6 months is not provided. Considering the varying maturities of the close ended schemes, the performance of close-ended schemes is not provided as it is strictly not comparable with that of open ended schemes.

Key risks

The value of investments and any income from them can go down as well as up and investors may not get back the amount originally invested.

- ◆ **Credit Risk:** Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e. will be unable to make timely principal and interest payments on the security).
- ◆ **Price-Risk or Interest Rate Risk:** As with all debt securities, changes in interest rates may affect the NAV of the Scheme(s) as the prices of securities increase as interest rates decline and decrease as interest rates rise.
- ◆ **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer.
- ◆ **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme(s) are reinvested. The additional income from reinvestment is the "interest on interest" component

For more risk factors check the KIM or visit <https://www.assetmanagement.hsbc.co.in/en/mutual-funds/investor-resources#>

Note on Risk-o-meters: Please note that the above risk-o-meter is as per the product labelling of the scheme available as on the date of this communication/ disclosure. As per SEBI circular dated October 05, 2020 on product labelling (as amended from time to time), risk-o-meter will be calculated on a monthly basis based on the risk value of the scheme portfolio based on the methodology specified by SEBI in the above stated circular. The AMC shall disclose the risk-o-meter along with portfolio disclosure for all their schemes on their respective website and on AMFI website within 10 days from the close of each month. Any change in risk-o-meter shall be communicated by way of Notice cum Addendum and by way of an e-mail or SMS to unitholders of that particular scheme.
