Invest in HSBC Value Fund

(An open ended equity scheme following a value investment strategy.)

April 2024

Potential that's rare.

Why HSBC Value Fund?

To seek an exposure to value style companies

Diversified equity fund with strong value bias that aims to deliver long term reasonable risk adjusted returns

Aim to identify undervalued stocks having the potential to deliver long term risk-adjusted returns

Focus on identifying valuation anomalies versus the economic potential of the business over the medium term

Undervalued stocks would include stocks which the Fund Managers believe are trading at less than their assessed values

Aims to minimize portfolio risk by investing in quality companies, monitoring corporate fundamentals closely

Long term capital appreciation

The fund looks to invest in fundamentally strong companies that the fund manager believes are trading at less than their assessed values thus offering higher upside potential

Aims to create a corpus through generating inflation-adjusted returns to help to long-term goals

This approach not only helps in identifying undervalued stocks but also factor-in the risk elements while picking stocks
