## Why HSBC Large and Mid Cap Fund?

Aim to achieve optimal allocation to large and mid caps

Profit pool consolidation with dominant players to continue and disruption to accelerate this shift

A top down and bottom-up approach will be used to invest in equity and equity related instruments

Stock selection focuses on earnings growth trajectory and within that, the emphasis lies on earnings surprises

True to label fund – The fund will stay true to its objective in keeping with the mandate reposed by the investor whilst investing in the fund

Looking to be in large caps where scale will be an advantage (like banks), while midcaps will be sector leaders or niche players in their respective business.

Aims to create a corpus through generating inflation-adjusted returns to help cater to long-term goals

For example, specialty chemicals, tiles etc. In some cases, like real estate (which is a regional market share consolidation play), we have a mix of large and mid-cap players

Prefer dominant and scalable businesses available at reasonable valuations
