Fund Strategy

- The Fund follows a passive roll-down strategy targeting Jan-Mar 2026 maturity, with majority of the securities in a +/- 1 year band of the target maturity
- The strategy offers best of both worlds – predictability of a close ended FMP and flexibility of an open-ended structure
- Continues to maintain the highest credit quality, with 100% of the portfolio in AAA or equivalent securities

Why HSBC Banking and PSU Debt Fund?

- The scheme is ideally suited for investors seeking a very high portfolio quality and targeting higher tax-adjusted returns compared to traditional investment options over a 3 year period
- The fund offers a prudent portfolio considering the risk appetite whilst seeking optimal returns
- Markets have seen a sharp rise in short to medium term yields over the last few months; the ~3 year point on the curve offers good value
