Fund Manager Kapil Punjabi

Vice President & Fund Manager –
Indian Fixed Income

- ◆ 15 years of industry experience in fixed income
- ◆ Joined HSBC Asset Management India in 2014

Overview

- ◆ Provides institutional investors with an opportunity to invest in short-term INR denominated money market instruments.
- ◆ Main objectives/strategy includes:
 - Aim to preserve capital¹
 - Daily liquidity ^{^^}
 - Active risk management
 - Extensive credit research

¹ Subject to terms and conditions as specified under the scheme information document of the scheme. Subscription/switch-in is subject to availability of funds for utilisation before the cut-off time without availing any credit facility. ² The Scheme is not a guaranteed or assured return Scheme. Investors may not get back the amount originally invested. There is no guarantee that the fund's investment objectives, including performance, will be achieved.

³ SEBI vide its circular no. SEBI/HO/IMD/IMD-II DF3/P/CIR/2021/652 dated October 27, 2021, on 'Guiding Principles for bringing uniformity in Benchmarks of Mutual Fund Schemes' has introduced two-tiered structure for benchmarking of certain categories of schemes. Accordingly, the benchmark has been classified as Tier 1 benchmark. Furthermore, the same is effective from 01 December 2021

^{^^} Daily liquidity - As per the Regulations, the Fund shall dispatch the redemption proceeds within 10 Business Days from the date of acceptance of redemption request. Under normal circumstances, the Fund will endeavour to dispatch the redemption proceeds 1 Business Day from the date of receiving a valid redemption request before the cut off time.

[^]The Macaulay duration is the weighted average term to maturity of the cash flows from a bond. The weight of each cash flow is determined by dividing the present value of the cash flow by the price. Please refer page no. 9 Scheme Information Document for explanation on Macaulay duration

Investment process and team

Our investment process is active, fundamental and value driven. It combines qualitative top-down analysis of macroeconomic and market dynamics, with structured bottom-up research into individual bond issuers and fixed income securities. While investment decisions are taken locally to ensure focus and accountability, our portfolio managers in India are able to access the expertise and experience of our investment professionals worldwide in order to gain a truly global perspective.

The Fund is managed in India by Kapil Punjabi, who has over 15 years of investment experience. The team in India benefits from the broader HSBC Asset Management Liquidity team which manages money market assets across multiple currencies globally.

Notes:

* The rating mentioned above refers to the local credit rating in India. The rating criteria and methodology used by Indian local rating agencies may be different from those adopted by most of the established international credit rating agencies. Therefore, the Indian local credit rating system may not provide an equivalent standard for comparison with securities rated by international credit rating agencies.

1. Subject to change without notice.

Past performance may or may not be sustained in the future. Refer note below. Pursuant to the circular issued by SEBI on 'Categorization and Rationalization of the Schemes, there has been change in the fundamental attribute(s) of the aforesaid scheme(s) effective Mar 14, 2018.

*Additional benchmark as per SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021
¹ Pursuant to SEBI circular dated Sept 13, 2012, certain Plans / Options within the schemes have been discontinued to comply with a single plan structure. Since there was no continuous NAV history available for the surviving Plan prior to 19 May 2011, returns since the said date have been considered for calculating performance. The inception date of HSBC Cash Fund however is 4 December 2002.

² Pursuant to SEBI circular dated Sept 13, 2012, certain Plans / Options within the schemes have been discontinued to comply with a single plan structure. Since there was no continuous NAV history available for the surviving Plan prior to 1 October 2012, returns since the said date have been considered for calculating performance. The inception date of HSBC Low Duration Fund however is 17 October 2006.

The performance details provided herein are of other than Direct Plan - Growth Option. Returns on Rs 10,000 are point-to-point returns for the specific time period, invested at the start of the period. The returns for the respective periods are provided as on last available NAV of July 2022 for the respective Schemes. Returns 1 year and Above are Compounded Annualised. Returns for less than 1 year is Simple Annualised. Load is not taken into consideration for computation of performance. Different plans shall have a different expense structure. The expenses of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses / commission charged to the Other than Direct Plan. The performance data of the scheme(s) managed by the respective Fund Manager which has/have not completed 6 month is not provided. The varying maturities of the close ended schemes, the performance of close-ended schemes is not provided as it is strictly not comparable with that of open ended schemes.

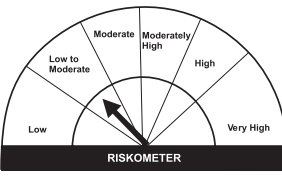

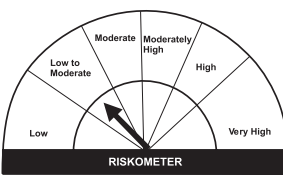

"SEBI vide its circular no. SEBI/HO/IMD/IMD-II DF3/P/CIR/2021/652 dated October 27, 2021, on 'Guiding Principles for bringing uniformity in Benchmarks of Mutual Fund Schemes' has introduced two-tiered structure for benchmarking of certain categories of schemes. Accordingly, the benchmark of the scheme has been classified as Tier 1 benchmark effective from 01 December 2021"

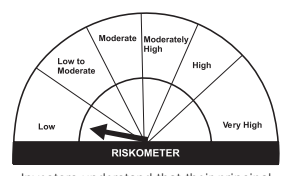

Key risks

The value of investments and any income from them can go down as well as up and investors may not get back the amount originally invested.

- ◆ **Credit Risk:** Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e. will be unable to make timely principal and interest payments on the security).
- ◆ **Price-Risk or Interest Rate Risk:** As with all debt securities, changes in interest rates may affect the NAV of the Scheme(s) as the prices of securities increase as interest rates decline and decrease as interest rates rise.
- ◆ **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer.
- ◆ **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme(s) are reinvested. The additional income from reinvestment is the "interest on interest" component
