The Asset Allocation portion shall also include subscription and redemption cash flow which may be undeployed due to various reasons (rebalancing or balances for running cost of the scheme, residual amount due to execution on rounding off etc).

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. SEBI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities having residual maturity of less than 91 days.

AMC shall invest in securities (debt and money market instruments) that fall within the definition of liquid assets for the purpose of ensuring liquidity.

Timelines for deployment of funds collected in NFO – In line with SEBI circular no. SEBI/HO/IMD/IMD-PoD-1/P/ CIR/2025/23 dated February 27, 2025, funds collected in new fund offer shall be deployed as per following manner:

1. The AMC shall deploy the funds garnered in an NFO within 30 business days from the date of allotment of units.
2. In an exceptional case, if the AMC is not able to deploy the funds in 30 business days, reasons in writing, including details of efforts taken to deploy the funds, shall be placed before the Investment Committee of the AMC.
3. The Investment Committee may extend the timeline by 30 business days, while also making recommendations on how to ensure deployment within 30 business days going forward and monitoring the same. The Investment Committee shall examine the root cause for delay in deployment before granting approval for part or full extension. The Investment Committee shall not ordinarily give part or full extension where the assets for any scheme are liquid and readily available.
4. In case the funds are not deployed as per the asset allocation mentioned in the SID as per the aforesaid mandated plus extended timelines, AMC shall:
 - (i) not be permitted to receive fresh flows in the same scheme till the time the funds are deployed as per the asset allocation mentioned in the SID.
 - (ii) not be permitted to levy exit load, if any, on the investors exiting such scheme(s) after 60 business days of not complying with the asset allocation of the scheme.
 - (iii) inform all investors of the NFO, about the option of an exit from the concerned scheme without exit load, via email, SMS or other similar mode of communication.
 - (iv) report deviation, if any, to Trustees at each of the above stages.

Further, the Scheme may, for meeting liquidity requirements invest in units of money market /liquid schemes of HSBC Mutual Fund and/or any other mutual fund provided that aggregate inter-scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund in accordance with Clause 4 of Seventh Schedule of SEBI (Mutual Funds) Regulations, 1996. The AMC shall not charge any investment management fees with respect to such investment.

At times the corpus of the scheme or subscriptions received on an ongoing basis may not be adequate for subscribing to one creation unit size as defined by the underlying scheme, then in such cases the allocation to Debt securities and money market instruments may be higher than indicated above.

Change in Investment Pattern:

Subject to the Regulations, the asset allocation pattern indicated above for the Scheme may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unitholders and meet the objective of the Scheme. Such changes in the investment pattern will be for short term and defensive considerations.

Portfolio re-balancing in case of short-term defensive consideration

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per para 1.14.1.2 of SEBI Master Circular on Mutual Funds dated June 27, 2024 and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Portfolio re-balancing in case of passive breaches

Further, as per para 2.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024.

The AMC shall not invest in any of the schemes unless full disclosure of its intention to invest has been made in the Scheme Information Document and that the AMC shall not be entitled to charge any fees on such investments may be disclosed.

Investment Strategy	<p>The Fund of Fund scheme will be following passive investment strategy. To achieve the investment objective, the Fund of Fund scheme will be predominately investing in units of HSBC Gold ETF. As per the Asset Allocation of the scheme it shall invest minimum 95% in units of HSBC Gold ETF and may hold up to 5% of their total assets in debt or money market securities/Funds. The Scheme will remain invested in the underlying scheme regardless of the prevailing gold price or future outlook for this asset class. Though every endeavor will be made to achieve the objective of the Scheme, the AMC/Sponsors/Trustee does not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.</p>
Risk Profile of the Scheme	<p>Scheme specific risk factors</p> <ul style="list-style-type: none"> ● Investments in the Underlying scheme will have all the risks associated with investments in gold & gold related instruments and debt markets. ● The portfolio disclosure of the Scheme will be largely limited to the investments made by the Scheme. ● This being a fund of funds Scheme, the investors should note that the expenses to be borne by the investor include the recurring expenses of the Underlying scheme in which Fund of Funds Scheme makes investments subject to the maximum limits prescribed under sub-regulation 6 & 6A of Regulation 52 of the SEBI Regulations. The subscription and redemption in FOF is also dependent on the liquidity of the underlying scheme. The illiquidity of the same may affect the performance of the FOF. ● There could be liquidity risk on account of illiquidity issues in underlying funds for example, underlying fund creating a segregated portfolio due to default in its exposures. To maintain liquidity at the feeder fund level, the AMC will invest upto 5% in Money Market instruments (including TREPS & reverse repo in government securities) and units of domestic mutual funds to provide from a liquidity perspective. ● The underlying scheme will invest in a combination of Gold and money market instruments hence, the performance of the FoF would depend upon the performance of Underlying scheme. <p>Risk factors associated with Underlying scheme investing in Gold and Gold related securities</p> <ul style="list-style-type: none"> ● Market risk due to volatility in gold prices: <p>The NAV of the Scheme will react to the securities and bullion market movements. The Investor may lose money over short or long periods due to fluctuation in the Scheme's NAV in response to factors affecting gold prices. The price of gold is driven by speculation and supply and demand, like most commodities. The key factors that affect the volatility of gold are geo-political uncertainties, rising crude oil prices, depreciating dollar, government policies on major export and import destinations, sales by Central Banks, fluctuating industrial demand and store of value demand, Changes in indirect taxes or any other levies etc.</p> ● Liquidity risks in physical markets impairing the ability of the fund to buy and sell gold : <p>Commodities tend to be more volatile than other instruments driven by demand and supply dynamics. This may have an impact on liquidity and may result in price risk. Liquidity risks may arise due to issues related to the supply chain which affects the availability of gold. The OTC markets for physical gold are concentrated in centres like London, New York and Zurich. However, London gold market is by far the largest global centre for over the counter (OTC) transactions. Globally, most of the countries prefer to store their gold reserves in London due to transparent market for gold driven by robust supporting infrastructure such as vaults, specialised transportation companies, insurers and customs handling firms. Mining companies, central banks, manufacturers of jewellery and industrial products, together with investors transact their business through London centre. However, in a situation of heightened geopolitical uncertainties and tariff wars, countries may intend to ship the gold back home as a defence mechanism which may adversely impact the supply of physical gold in global centres. The situation may result in higher cost of liquidity for the fund house, at the time of bulk redemptions driven by market sentiments.</p> <p>The market makers for gold ETFs also depend on the bulk gold markets centres to procure and sell the physical gold for providing two way liquidity to the fund houses. However, geopolitical uncertainty leading to supply issues in global centres, may limit their ability to support fund houses to meet the redemption by selling the underlying gold in physical markets in extreme scenarios.</p> <p>The gold ETF has to sell gold only to bullion bankers/traders who are authorized to buy gold but there is no obligation for bullion bankers/traders to be on the other side of the trade. Though there are adequate number of players (commercial or bullion bankers) to whom the gold ETF can sell gold, it may have to resort to distress sale of gold if there is no or low demand for gold to meet its cash needs of redemption or expenses.</p> <p>The lack of liquidity in the physical gold market may further arise due to seasonality of demand and supply. Lastly, government regulations including change in taxation or duties levied on gold may affect the demand and supply and may affect the liquidity.</p> ● Risks associated with handling, storing and safekeeping of physical gold: <p>All Physical gold procured must follow the LBMA guidelines as per prescribed SEBI guidelines. Risk arises when part or all of the gold held by the Fund could be lost, stolen or damaged and access to gold may be restricted due to natural calamities or human actions. Loss or damage as a consequence of war, invasion, acts of foreign enemies, hostilities (whether war be declared or not), civil war, rebellion, revolution, insurrection, military or usurped power may also lead to erosion of the value of underlying gold. Loss due to aridity, humidity, exposure to light or extremes of temperature can lead to risk of value erosion of physical gold. Hence, the Custodian maintains insurance with regards to the business on terms and conditions and the custodian is also responsible for all costs arising from the insurance policies. The custodian taking delivery on behalf of the AMC needs to ensure the weight, purity, and the source of gold as specified under the LBMA guidelines. Since this is paramount under</p>

SEBI guidelines, the risk arises in violation of same. Safekeeping of physical gold requires appropriate vaulting space, conforming to the best global standards. The vaulting agents engaged by the custodian needs to ensure the same.

● **Tracking Error and Tracking Difference Risk:**

The scheme shall invest in Gold ETF which is exposed to tracking error and tracking difference risk. Tracking error is defined as the annualized standard deviation of the difference in the daily returns between the NAV of the Scheme and the Underlying Index. Tracking Difference is defined as the annualized difference of returns between the NAV of the Scheme and the underlying index. The Fund Manager of the underlying scheme would not be able to invest the entire corpus in physical gold due to certain factors such as the fees and expenses of the underlying Scheme, cash balance and regulatory restrictions, which may result in Tracking Error with the underlying price of gold. The underlying Scheme's returns may therefore deviate from that of the underlying gold. The Fund Manager of the underlying scheme would monitor the Tracking Error on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. There can be no assurance or guarantee that the underlying Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index. Tracking Error/Tracking Difference may arise including but not limited to the following reasons:

- Expenditure incurred by the underlying Fund.
- Available funds may not be invested at all times as the Scheme may keep a portion of the funds in cash to meet Redemptions, for corporate actions or otherwise.
- Accounting for indirect taxes including tax reclaims.

The AMC would monitor the tracking error of the underlying Scheme on an ongoing basis and would seek to minimize tracking error. Under normal market circumstances, tracking error based on past one year rolling data shall not exceed 2%. However, in case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any.

Risk factor associated with legal, tax and regulatory risk

The Scheme could be exposed to changes in legal, tax and regulatory regime which may adversely affect it and/or the investors. Such changes could also have retrospective effect and could lead to additional taxation imposed on the Scheme which was not contemplated either when investments were made, valued or disposed off.

Risk Factors associated with investment in ETFs:

To the extent the Scheme's assets are invested in Gold ETFs, the risks associated with the underlying Gold ETFs, will also be applicable.

The units issued under this Scheme, when predominantly invested in Gold ETFs, will derive liquidity from the underlying Gold ETF having creation/redemption process in creation unit size of predefined quantity of physical gold. When subscriptions are not adequate enough to invest in creation unit size, the Scheme may purchase units of Gold ETFs from the secondary market in stock exchange. Since the price of Gold ETF units traded on stock exchange may be different from the NAV of Gold ETF due to liquidity, the Scheme may at times purchase units which are higher in price than the value of gold represented by them or indicative NAV (iNAV) of the Gold ETF and vice versa in case of redemption.

Risk Factors associated with investments in Money Market instruments

- Investments in money market instruments would involve a moderate credit risk i.e. risk of an issuer's liability to meet the principal payments.
- Money market instruments may also be subject to price volatility due to factors such as changes in interest rates, general level of market liquidity and market perception of credit worthiness of the issuer of such instruments.
- The NAV of the Scheme's Units, to the extent that the corpus of the Scheme is invested in money market instruments, will be affected by the changes in the level of interest rates. When interest rates in the market rise, the value of a portfolio of money market instruments can be expected to decline.
- The liquidity of these instruments can be adversely affected by any adverse sentiment about the issuer or deterioration in general market liquidity. This liquidity refers to the ease with which a security can be sold at or near to its valuation yield- to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer.

Risk Factors associated with investments in Debt instruments

- **Price-Risk or Interest Rate Risk:** As with all debt securities, changes in interest rates may affect the NAV of the Scheme as the prices of securities increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV. The change in value of a security, for a given change in yield, is higher for a security with higher duration and vice versa. Hence portfolios with higher duration will have higher volatility which leads to duration risk. Government securities do carry price risk depending upon the general level of interest rates prevailing from time to time. The extent of fall or rise in the prices is a function of the coupon rate, days to maturity and the increase or decrease in the level of interest rates. In the case of floating rate instruments, an additional risk could be due to the change in the spreads of floating rate instruments.

- **Liquidity Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. This represents the possibility that the realised price from selling the security might be lesser than the valuation price as a result of illiquid market. If a large outflow from the Scheme is funded by selling some of the illiquid securities, the NAV could fall even if there is no change in interest rates. Illiquid securities are typically quoted at a higher yield than the liquid securities and have higher bid offer spreads. Investment in illiquid securities results in higher current yield for the portfolio. The corporate debt market is relatively illiquid vis-a-vis the government securities market. Liquidity risk is today characteristic of the Indian fixed income market. HSBC monitors liquidity risk on an ongoing basis from both assets and liability side.
- **Spread risk:** Though the sovereign yield curve might remain constant, investments in corporate bonds are exposed to the risk of spread widening between corporate bonds and gilts. Typically, if this spread widens, the prices of the corporate bonds tend to fall and so could the NAV of the Schemes. Similar risk prevails for the investments in the floating rate bonds, where the benchmark might remain unchanged, but the spread over the benchmark might vary. In such an event, if the spread widens, the price and the NAV of the Schemes could fall.
- **Credit Risk:** Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e. will be unable to make timely principal and interest payments on the security). A sovereign security carries no default risk since Government raises money to meet its capital and revenue expenditure by issuing these debt or discounted securities. Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk. Because of this risk, corporate debentures are sold at a yield above those offered on Government Securities, which are sovereign obligations.
- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed. However, declining interest rates normally lead to increase in bond prices which may help cushion the impact of reinvestment risk to some extent.
- **Prepayment Risk:** The risk associated with the early unscheduled return of principal on a fixed-income security. The early unscheduled return of principal may result in reinvestment risk.
- **Market risk:** Lower rated or unrated securities are more likely to react to developments affecting the market and the credit risk than the highly rated securities which react primarily to movements in the general level of interest rates. Lower rated or unrated securities also tend to be more sensitive to economic conditions than higher rated securities.

Risks associated with Segregated Portfolio

Liquidity risk – Segregated Portfolio is created to separate debt and money market instruments affected by a Credit Event from the Main Portfolio of the Scheme to ensure fair treatment to existing, entering and exiting investors of the scheme. The Fund will not permit redemption of the Segregated Portfolio units, but the units will be listed on a recognized stock exchange. The Fund is not assuring any liquidity of such units on the stock exchange which may subject investors to impact cost. Further, trading price of units on the stock exchange may be significantly lower than the prevailing NAV. Investors can continue to transact (subscribe/redeem) from the Main Portfolio.

Credit risk – While the AMC will put in sincere efforts to recover the securities in the Segregated Portfolio and distribute the same to unit holders, since such securities are affected by credit event, it is likely that such securities may not realize any value leading to losses to investors.

Risks associated with transaction in Units through Stock Exchange mechanism

In respect of transactions in Units of the Scheme routed through the BSE StAR MF platform or any other recognized stock exchange platform as intimated by the AMC, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE, or such other exchange and their respective clearing corporations on which the Fund has no control. Further, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by BSE or such other recognized exchange in this regard.

Risk mitigation strategies

The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in different types of instruments. The risk control process involves identifying & measuring the risk process involves identifying & measuring the risk through various risk measurement tools.

Risks & Description	Risk Mitigants / Management Strategy
Market Risk : Fluctuations in the price of gold	The fund is passively managed and fluctuations in Gold prices will not increase the tracking error.
Tracking Error Risk : The performance of the Scheme may not be commensurate with the performance of the benchmark index on any given day or over any given period, referred to as tracking error.	The Investment Manager would monitor the tracking error of the underlying Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. The investment manager will endeavor to maintain optimum cash levels to minimize tracking error.
Liquidity risk: Inability to buy /sell appropriate quantity of gold	The underlying scheme may retain certain investments in cash or cash equivalents for its day-to-day liquidity requirements.

Further, no entry/exit load shall be charged for units allotted under Reinvestment of IDCW option.</p> <p>However, it must be distinctly understood that the actual declaration of IDCWs under the Scheme and the frequency thereof will, inter-alia, depend upon the distributable surplus of the Scheme, as computed in accordance with SEBI Regulations. - 3) All applicants are deemed to have accepted the terms subject to which this offer is being made and bind themselves to the terms upon signing the Application Form and tendering the payment.
- 4) Investors are requested to use the services of AMFI certified Distributors empanelled with the AMC. The AMC shall not be liable to an Investor, with respect to investments made through non-empanelled Distributors.

If the investor wishes to invest directly, i.e. without involving the services of any agent or broker, "DIRECT" should be mentioned in the space provided for "ARN Number" in the Application Form/Transaction Form. Any subsequent change /update/removal of broker code will be based on the written request from the Unit holder and will be on a prospective basis only from the date when the Registrar executes such written instruction.

Employee Unique Identification Number (EUIN) : Para 15.11 of SEBI Master Circular on Mutual Funds dated June 27, 2024, required creation of a unique identity number of the employee/relationship manager/sales person of the distributors interacting with the investor for the sale of mutual fund products, in addition to the AMFI Registration Number (ARN) of the distributor. This has been recommended by SEBI in order to avoid any instance of mis-selling, particularly in advisory based transactions. This would further help tackle the problem of mis-selling even if the employee/relationship manager/sales person leave the employment of the distributor. Due to this regulatory change, all employees of distributors who are involved in sale of mutual fund products are required to obtain an Employee Unique Identification Number (EUIN). Applications received without a valid EUIN and/or valid sub-broker code (should be a valid ARN and not an internal code) are subject to rejection by the fund.

Instructions for filling up the Application Form

Background:

In its continuing endeavour to make the existing New Fund Offer process more efficient, SEBI introduced a supplementary process of applying in New Fund Offer, viz: the "Applications Supported by Blocked Amount (ASBA)" process. Accordingly, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009, as amended have been amended for ASBA process. The salient features of circular no. SEBI/CFD/DIL/ASBA/1/2009/30/12 dated December 30, 2009 available on SEBI website for "Additional mode of payment through Applications Supported by Blocked Amount (hereinafter referred to as "ASBA") are mentioned below for understanding the ASBA process:

- 1. Meaning of ASBA:** ASBA is an application for subscribing to a New Fund Offer (NFO), containing an authorisation to block the application money in a bank account.
- 2. Self Certified Syndicate Bank (SCSB):** SCSB is a banker to an issue registered with the SEBI which offers the facility of applying through the ASBA process. The list of SCSBs will be displayed by SEBI on its website at www.sebi.gov.in from time to time. ASBAs can be accepted only by SCSBs, whose names appear in the list of SCSBs displayed on SEBI's website. Investors maintaining their accounts in any of these Banks may approach one of the designated branches of these SCSBs for availing this facility. Further it may be noted that from time to time new banks register themselves as SCSBs who become eligible to provide these services and also the existing SCSBs designate additional branches that also provide this facility. An updated list of all the registered SCSBs, their controlling branches, contact details and details of their contact persons, a list of their designated branches which are providing such services is available on the website of SEBI at the address <http://www.sebi.gov.in>. Alternatively, investors may also contact the AMC, R&TA for information about the SCSBs or the ASBA process. These SCSBs are deemed to have entered into an arrangement with the Issuer and shall be required to offer the ASBA facility to all its account holders for all issues to which ASBA process is applicable. An SCSB shall identify its Designated Branches (DBs) at which an ASBA Applicant shall submit ASBA and shall also identify the Controlling Branch (CB), which shall act as a coordinating branch for the Registrar to the Issue, Stock Exchanges and Merchant Bankers. The SCSB, its DBs and CB shall continue to act as such, for all issues to which ASBA process is applicable. The SCSB may identify new DBs for the purpose of ASBA process and intimate details of the same to SEBI, after which SEBI will add the DB to the list of SCSBs maintained by it. The SCSB shall communicate the following details to Stock Exchanges for making it available on their respective websites. These details shall also be made available by the SCSB on its website: (i) Name and address of the SCSB (ii) Addresses of DBs and CB and other details such as telephone number, fax number and email ids. The ASBA data shall thereafter be uploaded by the SCSB in the electronic IPO system of the Stock Exchanges. Once the Allotment is finalised, the R&TA shall send an appropriate request to the Controlling Branch of the SCSB for unblocking the relevant bank accounts and for transferring the amount allocable

Transactions by unit holder/investors who fail to submit copy of PAN are liable to be rejected.

Accordingly, it is mandatory for all investors to quote their Permanent Account Number (PAN) and submit certified copy of the PAN card issued by the Income Tax Department, irrespective of the amount of investment, while making an application for Purchase of Units. Furnishing an incorrect PAN or not furnishing these details could invite a penalty of R 10,000 as per the extant provisions of the Income Tax Act, 1961.

However, there are certain nature of transactions and type of clients for which PAN is not mandatory, as mentioned below:

- Micro SIPs: SIPs upto R 50,000/- per year per investor;
- Investments from investors residing in the state of Sikkim;
- Investments from Central Government, State Government and the official appointed by the Courts e.g. Official Liquidator, Court Receiver etc. (under the category of Government).

The Third Party should ensure that the amount invested in the Scheme is through legitimate sources only and does not involve and is not designated for the purpose of any contravention or evasion of the provisions of the Income Tax Act, Prevention of Money Laundering Act (PMLA), Prevention of Corruption

Act and/or any other applicable law in force and also any laws enacted by the Government of India from time to time or any rules, regulations, notifications or directions issued thereunder.
