All economies go through “Business Cycles” and every stage of the business cycle impacts performance of each sector that largely drives the performance of equity market.

Thus, timely selection of the prospective sectors that could benefit in different market cycles may provide great opportunity to generate alpha.

Invest in HSBC Business Cycles Fund that adopts business cycle approach by identifying economic trends and strategically investing in the sectors and stocks that may perform at that stage of business cycle in the economy which seek to generate wealth in the long-run.

Why HSBC Business Cycles Fund?

- Aim to build a portfolio of predominantly equities with focus on riding business cycles
- Dynamic allocation between cyclical and defensive sectors and stocks at different stages of business cycles in the economy

Fund Approach

- The fund focuses on riding business cycles by strategically changing allocation between various sectors and stocks at different stages of business cycle in the economy
- The fund has the flexibility to invest across the market capitalization spectrum.
- Within a sector, the fund prefers dominant and scalable businesses available at reasonable valuations.

Key portfolio themes:

- The fund is focused on the cyclical part of the economy
- Constructive on the businesses that are participating in the current growth trends
- The fund is positively biased towards domestic cyclicals, supported by the more robust medium term growth outlook
- Our positioning in the portfolio is:
 - Capex recovery theme: Industrial Product sector is seeing a strong growth driven by a strong capex push by both public and private sector companies
 - Infrastructure: Remain positive on infrastructure space driven by strong push by government
 - Financials: Financials are seeing a strong growth driven by recovery in credit growth cycle coupled with credit cost normalisation which is leading to earnings expansion

Investment Objective

The investment objective of the Scheme is to seek to generate long-term capital appreciation from a portfolio of predominantly equity and equity related securities, including equity derivatives, in the Indian market with focus on riding business cycles through dynamic allocation between various sectors and stocks at different stages of business cycles in the economy. The Scheme could also additionally invest in Foreign Securities. There is no assurance that the objective of the Scheme will be realised and the Scheme does not assure or guarantee any returns.
