

RedHex SIF

By  HSBC Mutual Fund

Diversify for a solid foundation.

Presenting RedHex Hybrid Long-Short Fund

Choose RedHex Hybrid Long-Short Fund that aims for a 50:50 mix of stability and alpha generation opportunities diversified across debt, REITs, equity arbitrage and INVITs. Here's how it could work for you.

Targeting high accrual benefits and low volatility

Core allocation to arbitrage and fixed income ensures fixed income like returns. Alpha generation by way of steady accruals driven by participation in credit opportunities

Robust risk management

Active management and strict strategy level risk controls help reduce portfolio volatility, provide downside protection, and deliver more stable outcomes

Fit for all seasons

Consistent credit exposure aims to generate healthy absolute income levels, irrespective of overall market direction in the medium term, liquidity sleeve and arbitrage provide sufficient liquidity management to meet any short-term liquidity needs

Experienced investment team

Managed by a highly experienced specialized team with experience across strategies including derivatives and special situations

Tax and risk-return efficiency

Investors benefit from long-term capital gains taxed over 1-year for listed and 2-years period for unlisted at 12.5%, making post-tax returns highly competitive compared to Cat II AIFs with higher credit risk strategies and nil liquidity (closed ended)
